Indicator Summary

Indicator	Estimate
PO.1	

Indicator	Estimate
Total Number of Crops (Median)	5
Total Number of Important Crops (Median)	1
Gini-Simpson Diversity Index (Median)	0
Median % of farm area used for staple crop production (Millet, Maize, Sorghum & Wheat)	100.0%
PO.2	
Women's Decision Making - Crops grown for food	52.6%
Women's Decision Making - Crops grown for the market	79.7%
Women's Decision Making - Expenditure of household savings	73.2%
Women's Decision Making - Choose how to spend their own income	39.1%
Women's Decision Making - Choose what to sell in the market	55.8%
Women's Decision Making - Participate in community committees – specifically can they choose how they allocate time to community groups, farm work, etc.	53.3%
% of women having sole/joint ownership of at least one major or two minor assets:	97.4%
Median % of household assets owned solely/jointly by women	100.0%
PO.3	
% of households with at least 2 different sources of income	36.7%
Financial situation - “We can buy everything we want and there is still money for potential savings”	70.9%
Does your household have any credit, debts or loans, or did you have any in the last 12 months?:	52.7%
Did you ever find it difficult to pay the debts in the last 12 months	64.0%
PO.4	
Minimum Dietary Diversity (5 food groups)	85.4%
Estimated % of households with moderate or severe food insecurity:	21.5%
Estimated % of households with severe food insecurity:	3.5%

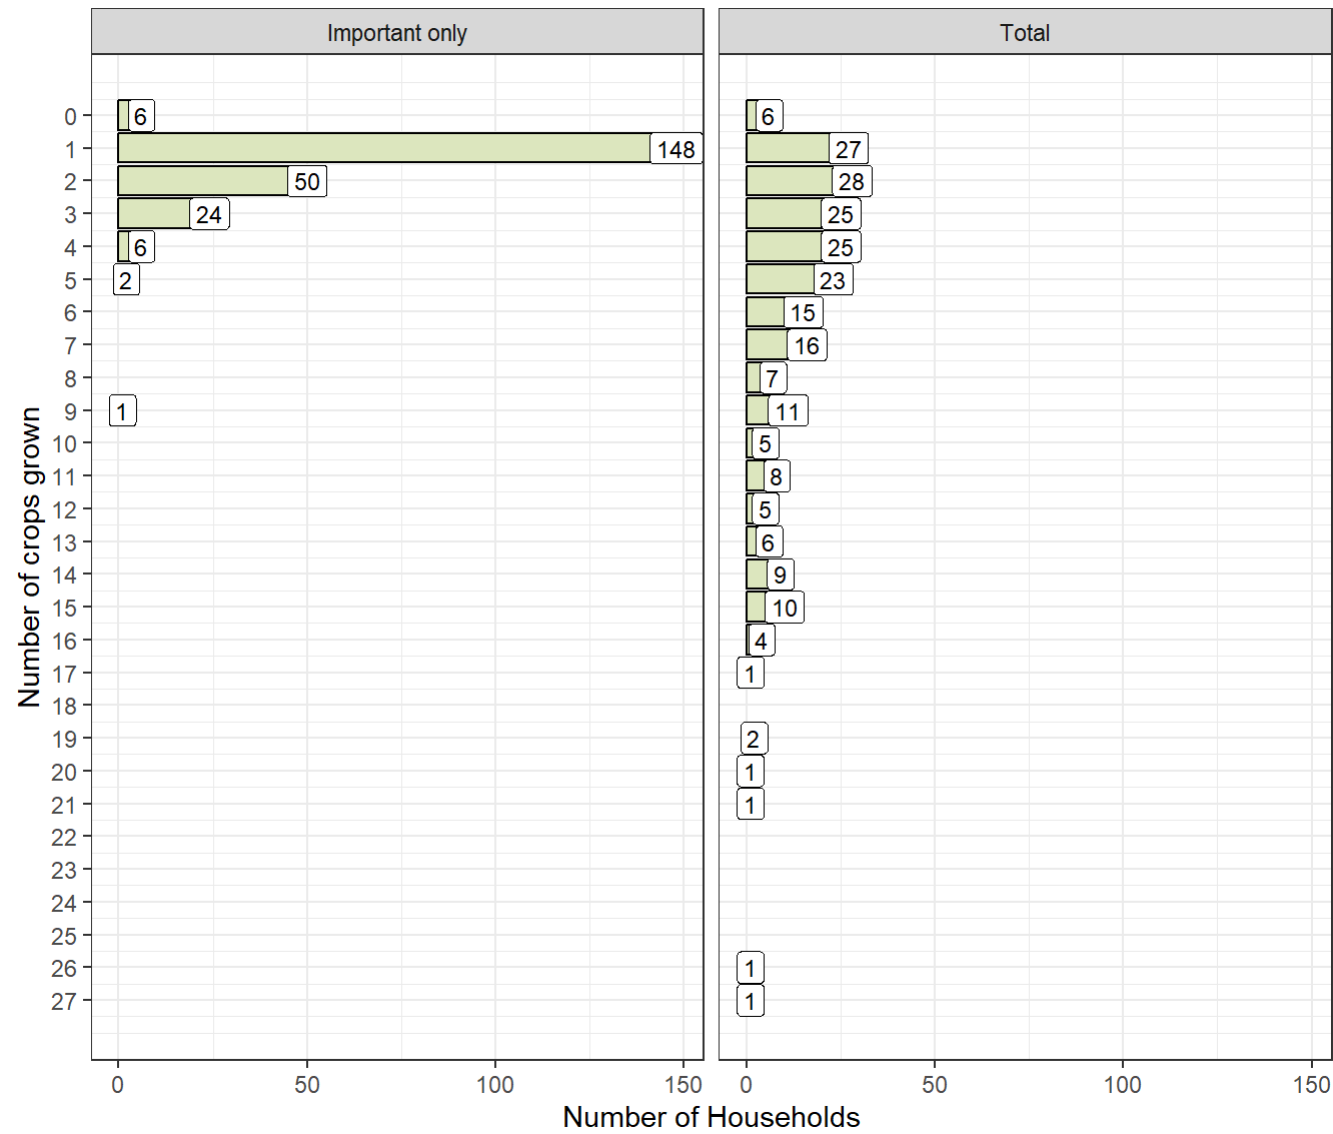

PO.1 Productivity

Objective Definition : Smallholder farm households have improved their capacity to increase productivity and food security by transitioning their farming systems through agroecological methods.

Crop Production

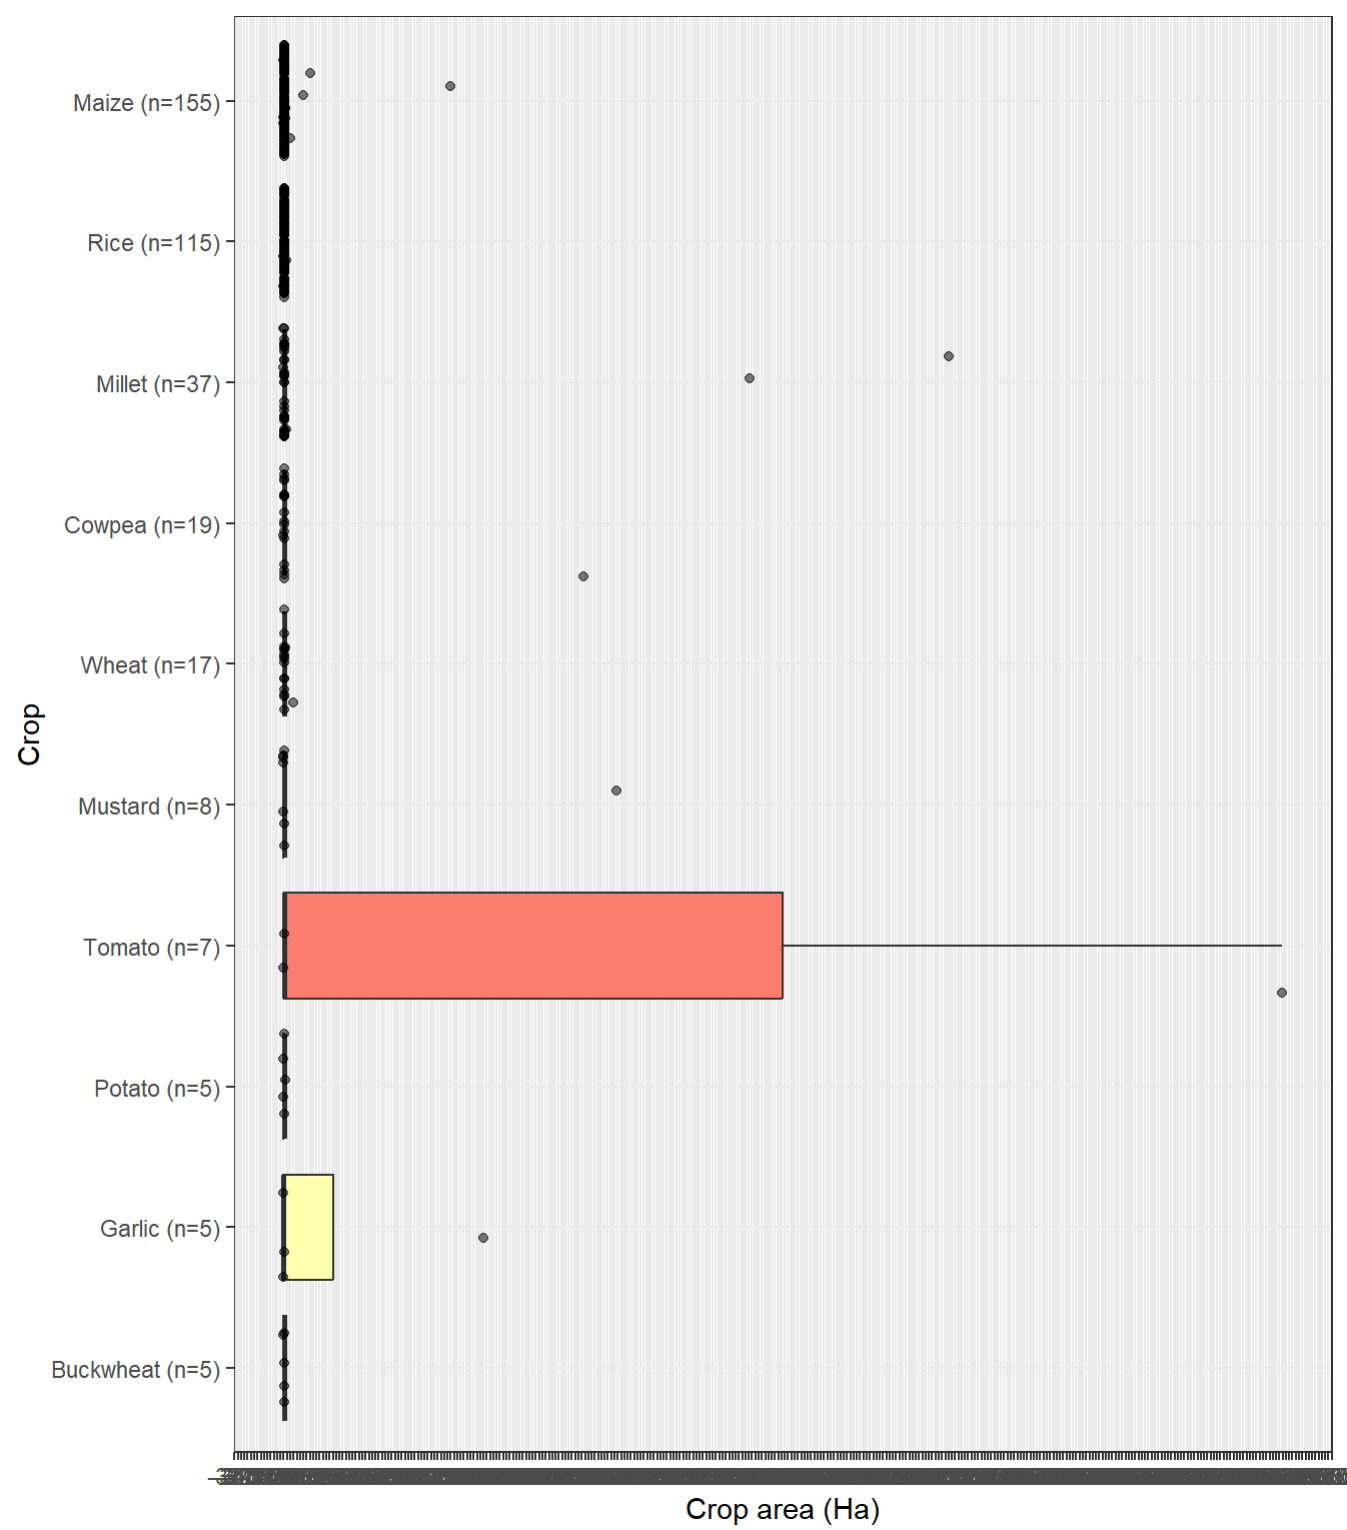

Crop	N (%)	Mean Area (Ha)	Mean Yield (Kg)	Mean Productivity (Kg/Ha)
Maize	155 (64.6%)	1.34	661	3,767
Rice	115 (47.9%)	0.22	4,358	31,612
Millet	37 (15.4%)	23.51	673	2,072
Cowpea	19 (7.9%)	12.17	351	1,237
Wheat	17 (7.1%)	0.67	249	1,362
Mustard	8 (3.3%)	31.81	293	948
Tomato	7 (2.9%)	254.04	5,043	3,112
Buckwheat	5 (2.1%)	0.07	62	1,283
Potato	5 (2.1%)	0.30	453	12,946
Garlic	5 (2.1%)	38.12	771	2,683
Ginger	3 (1.2%)	0.04	87	1,656
Onion	3 (1.2%)	0.03	25	4,364
Sponge gourd	2 (0.8%)	0.00	128	Inf
Chilli	2 (0.8%)	0.02	50	2,083
Yam	1 (0.4%)	25.40	500	20
Banana	1 (0.4%)	0.05	908,000	18,916,667
Pumpkin	1 (0.4%)			
Bottle gourd	1 (0.4%)	0.01	60	10,000
radish	1 (0.4%)	0.25	20	80
Missing entries result of using measurment units wihtout confrimed conversions to KG and/or HA				

Number of crops grown in a farm

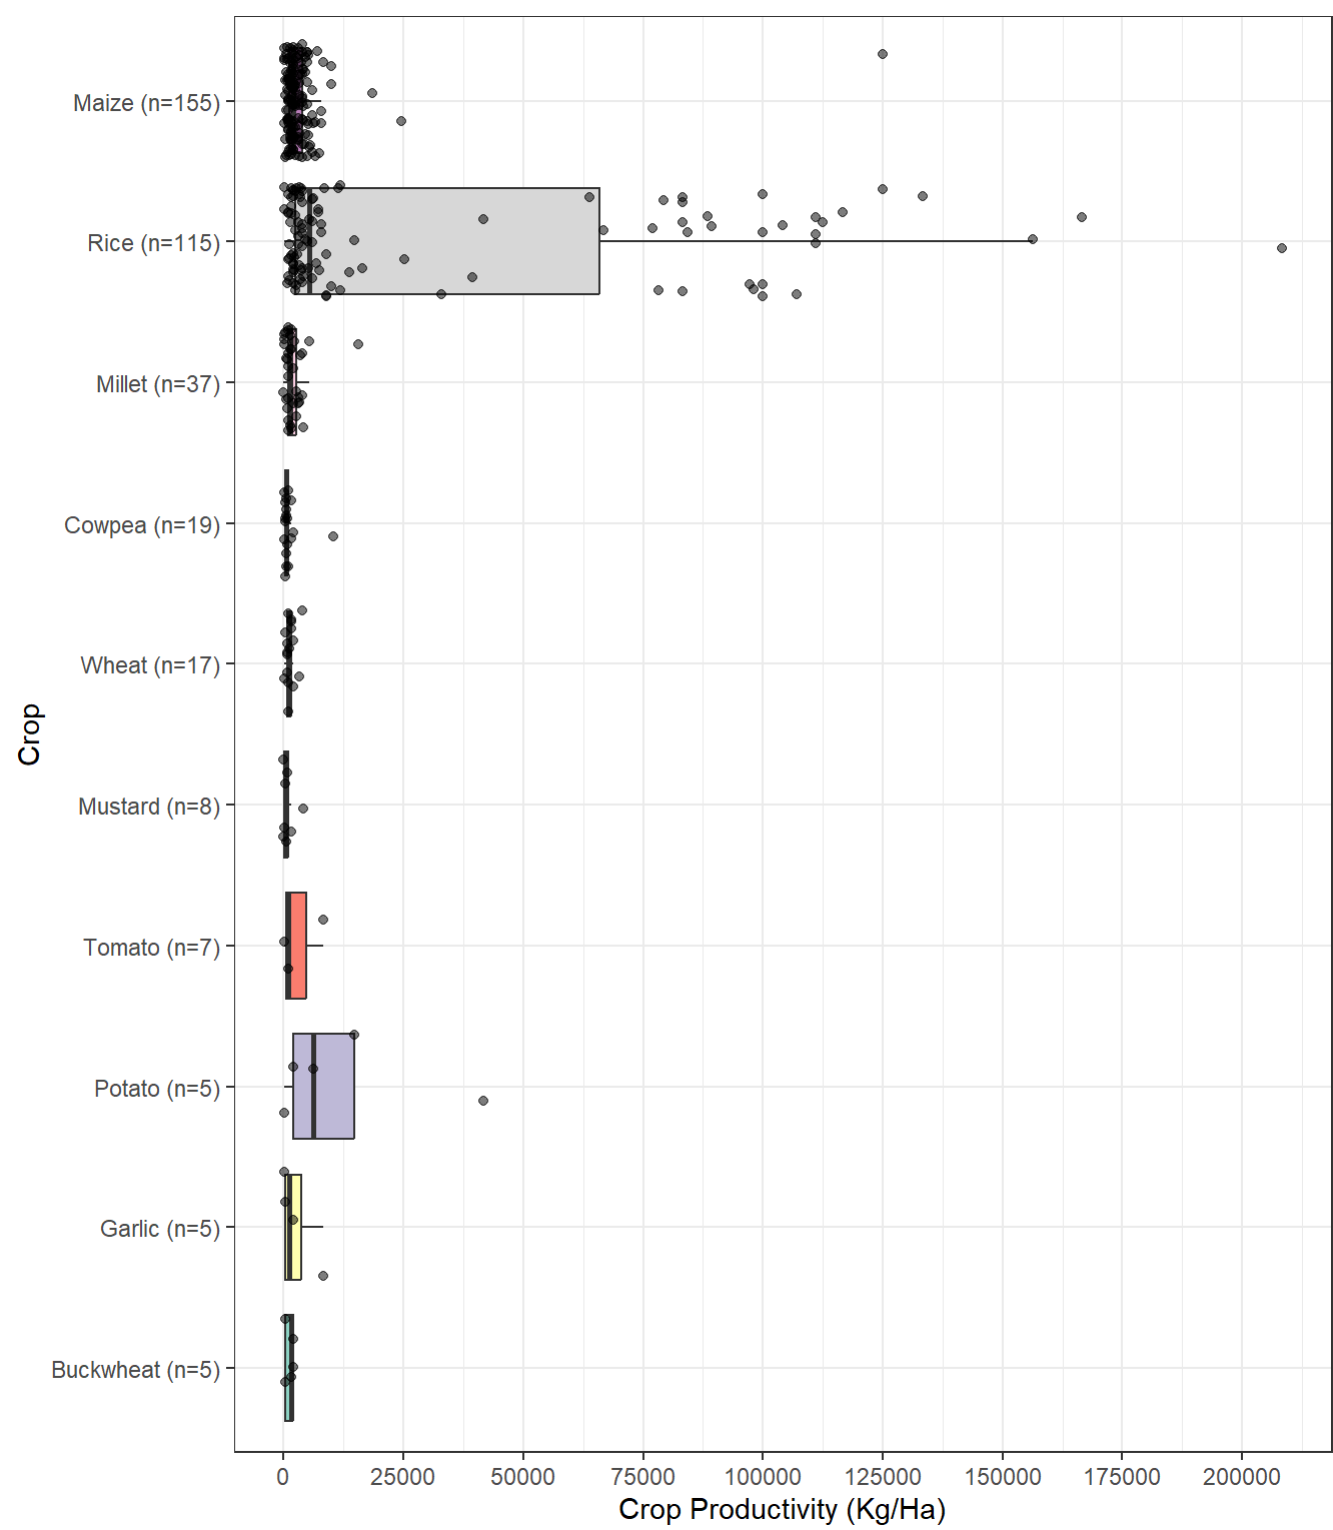

Area of main crops (Ha)

The following box plot shows the distribution of crop production areas (in hectares) for all crops grown by at least 5 respondents. The box represents the interquartile range (IQR) of the data, with the line inside the box indicating the median. The whiskers extend to 1.5 times the IQR, and any points beyond this range are considered outliers and are not shown in this plot.

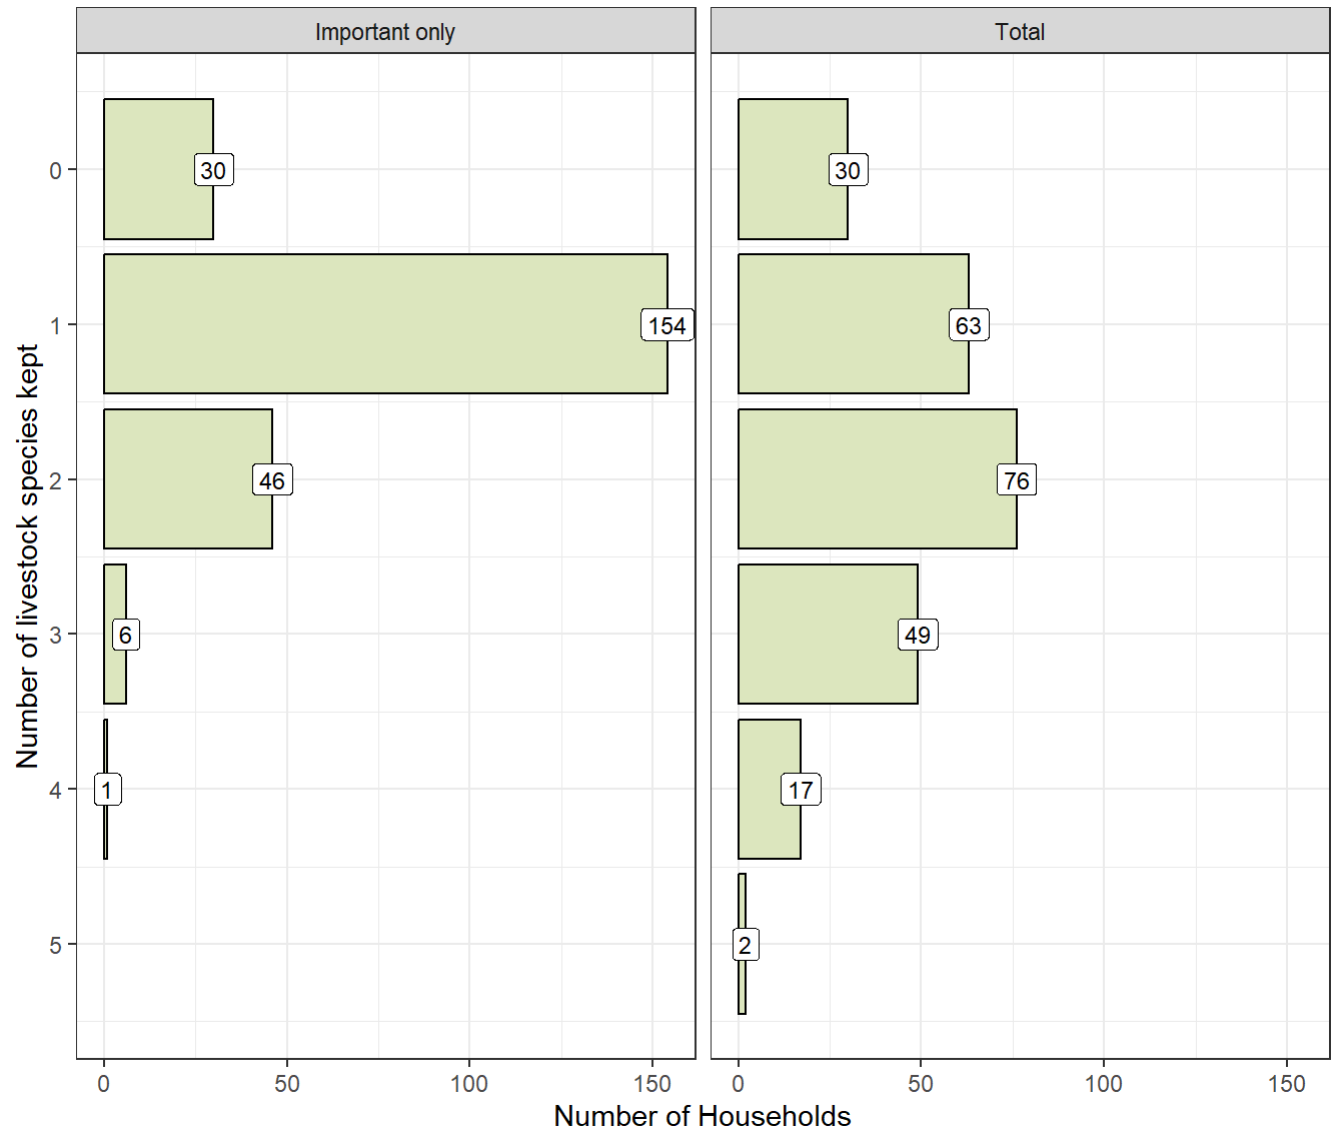

Crop Yields (Kg/Ha)

The following box plot shows the distribution of crop yields (in Kg/Ha) for all crops grown by at least 5 respondents. The box represents the interquartile range (IQR) of the data, with the line inside the box indicating the median. The whiskers extend to 1.5 times the IQR, and any points beyond this range are considered outliers and are not shown in this plot.

Livestock Production

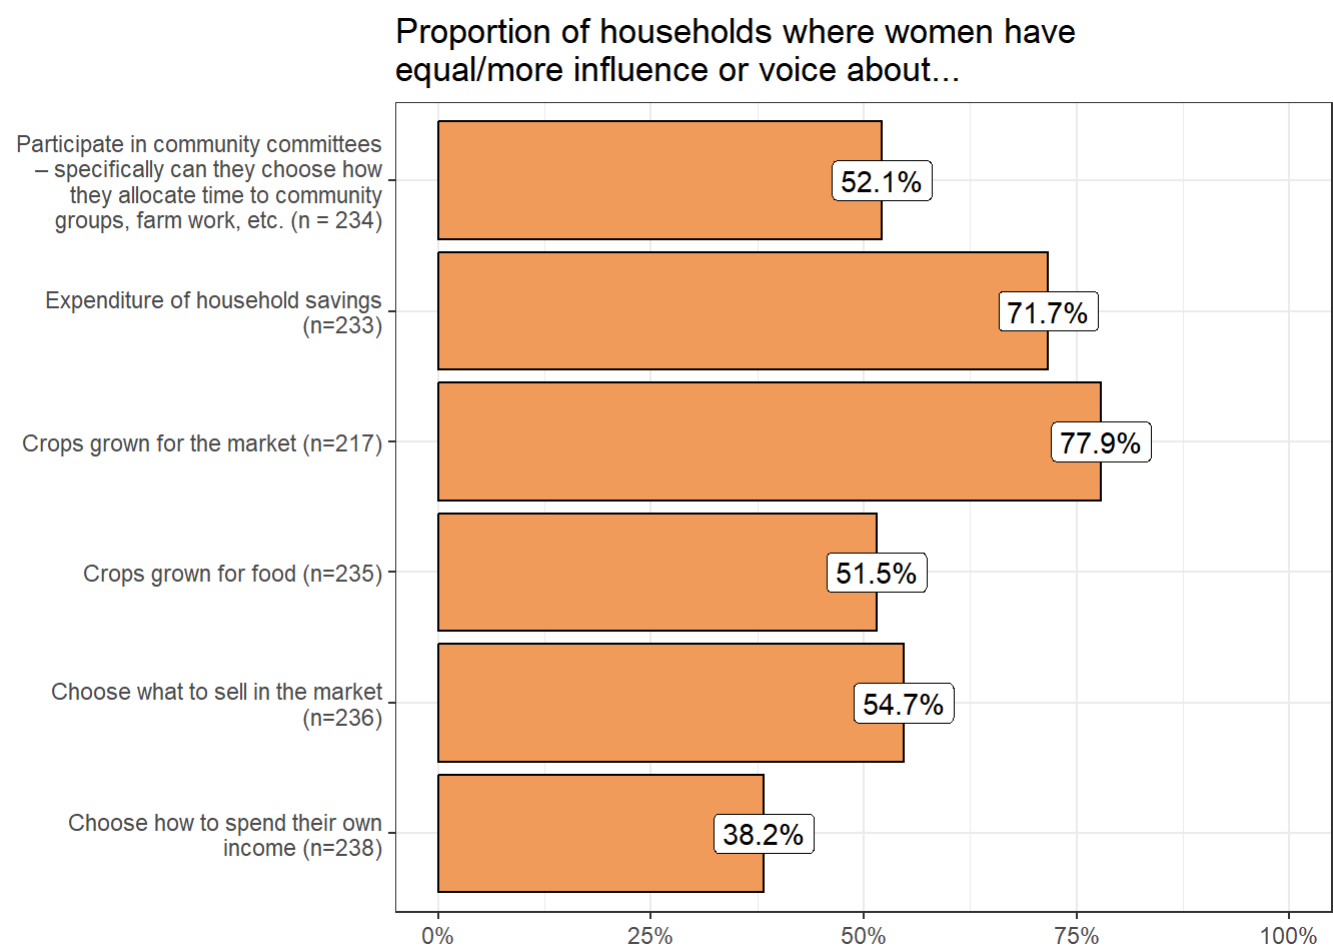

Livestock Species	N (%)	Headcount (Median)	Number bought (Median)	Live births (Median)	Quantity sold (Median)	Quantity died (Median)	Sale Income (Median)
Goats	168 (70.0%)	5	0	3	2	0	29000
Cattle	136 (56.7%)	2	0	1	0	0	40000
Chicken	92 (38.3%)	7	2	0	2	2	8000
Pigs	18 (7.5%)	1	1	0	2	0	60000
Bees	5 (2.1%)	2					
Rabbits	1 (0.4%)	1					
Sheep	0 (0.0%)						
Other birds	0 (0.0%)						
Donkey	0 (0.0%)						
Fishes	0 (0.0%)						
Turkey	0 (0.0%)						
Horses	0 (0.0%)						

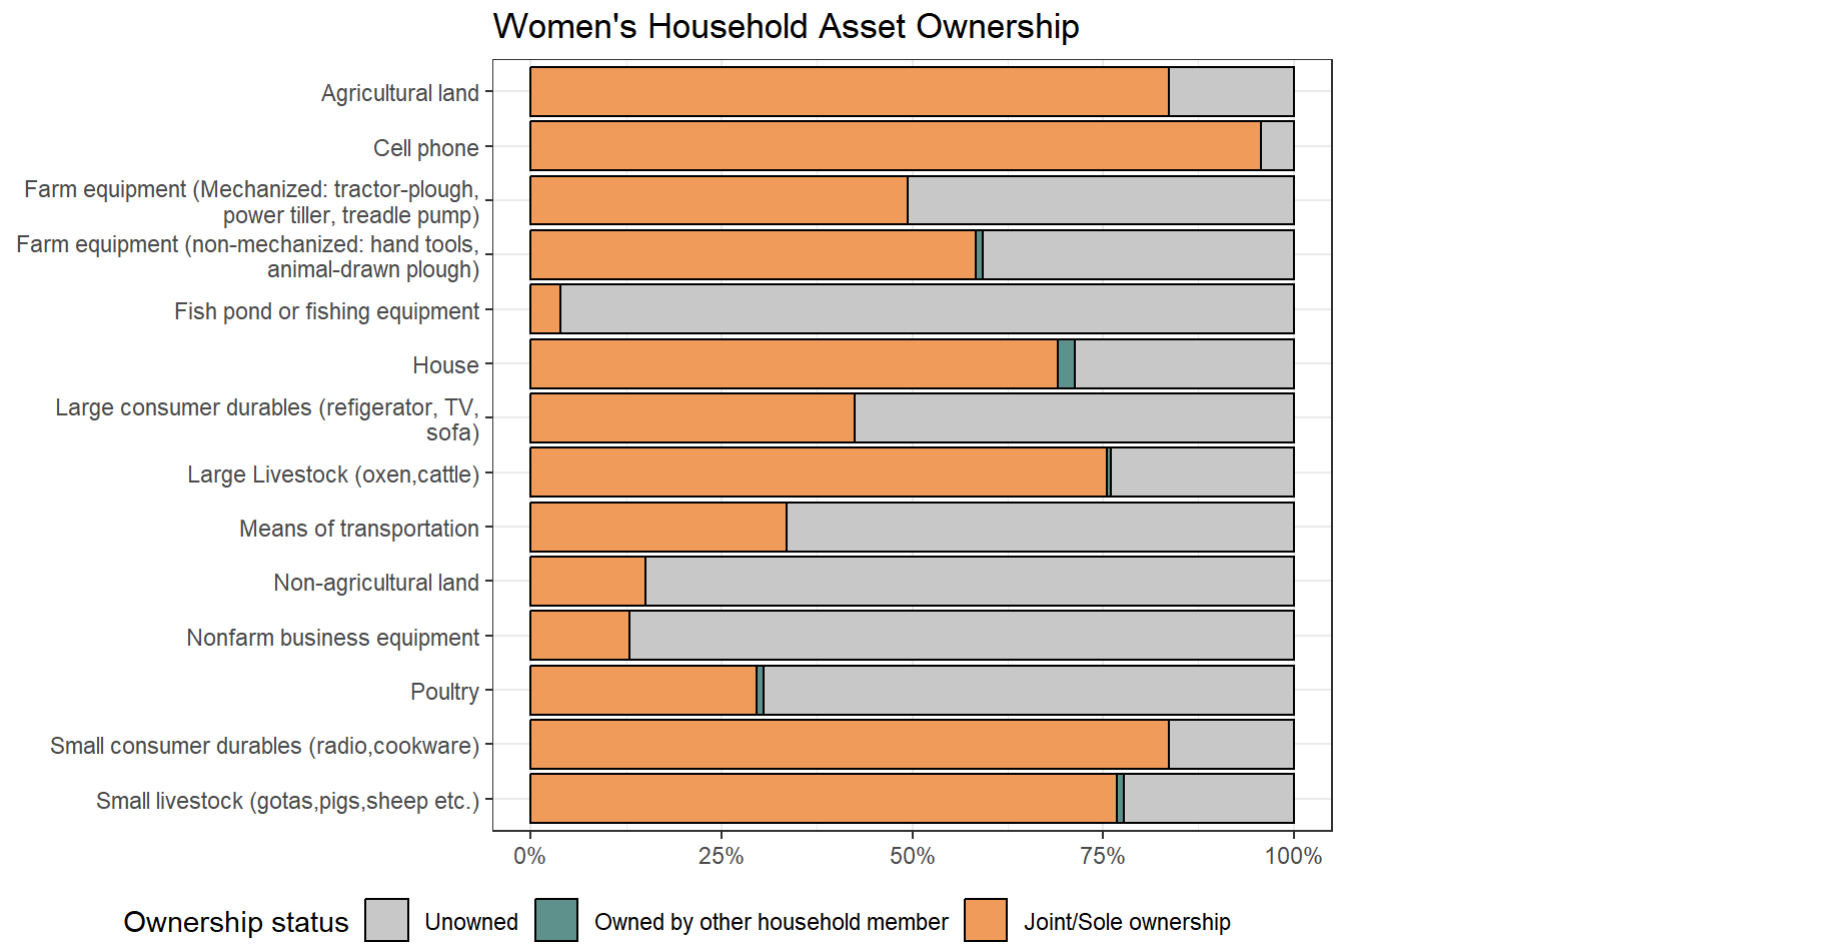

PO.2 Womens Empowerment

Objective Definition : Women farmers have gained greater control over productive resources and decision making in their households and communities.

Proportion of households where women have equal/more influence or voice about...

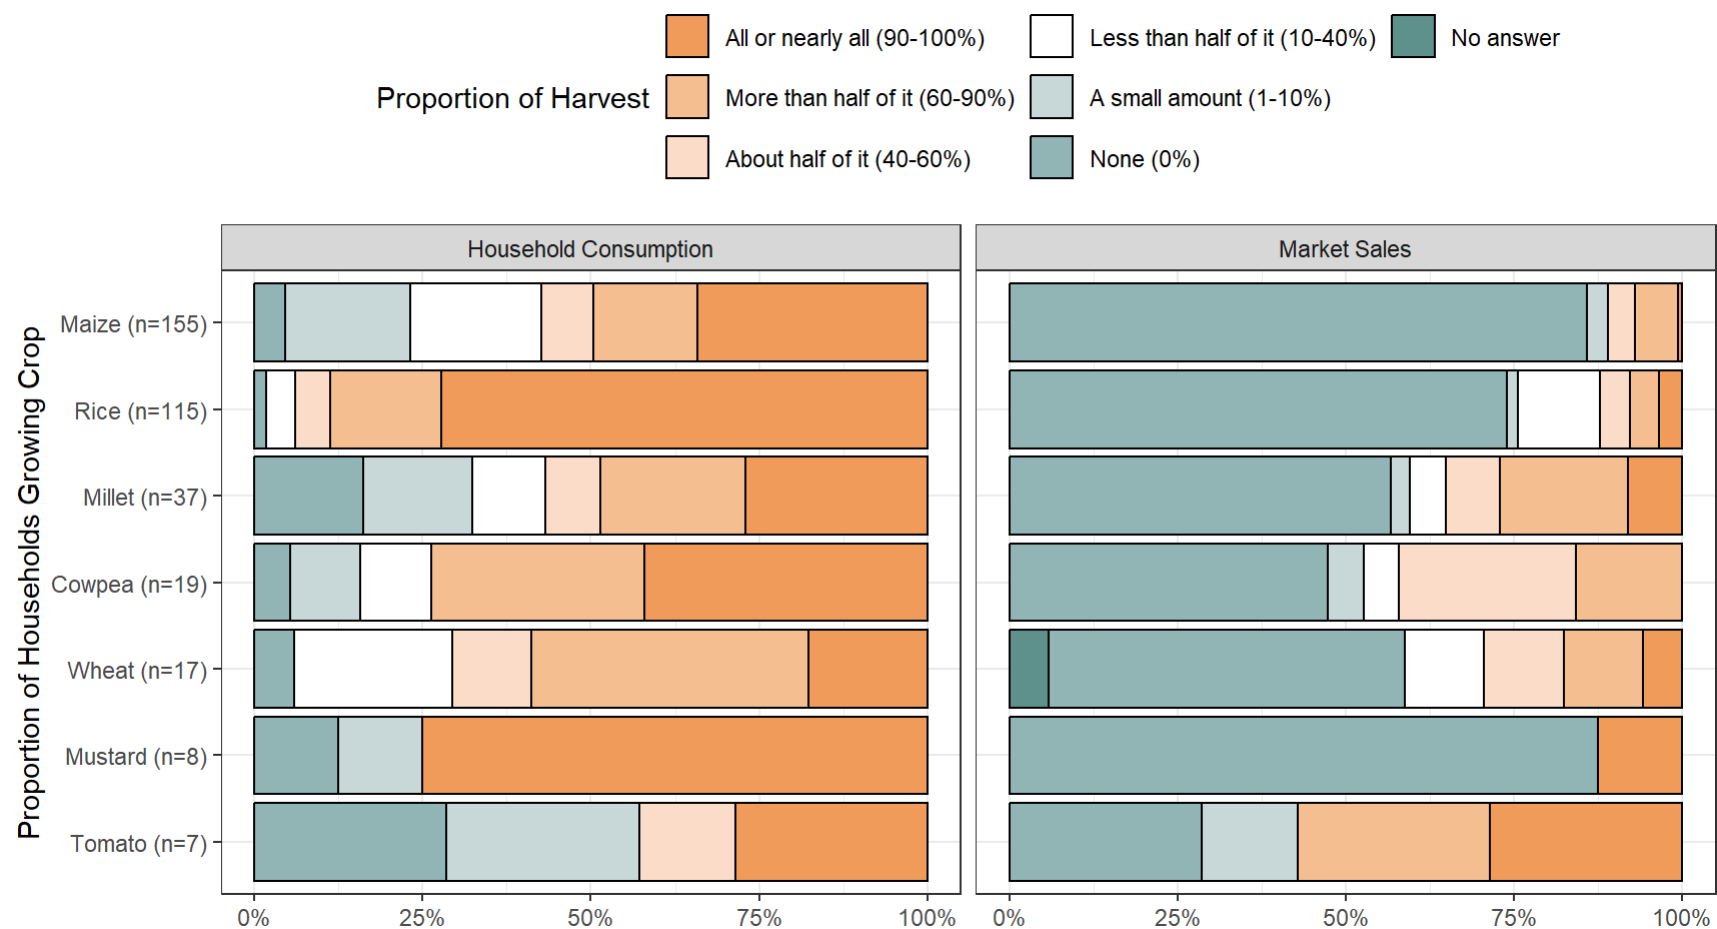

Asset	Joint/Sole ownership	Unowned	Owned by other household member
Agricultural land	83.7%	16.3%	0.0%
Large Livestock (oxen,cattle)	75.5%	24.0%	0.4%
Small livestock (gotas,pigs,sheep etc.)	76.8%	22.3%	0.9%
Poultry	29.6%	69.5%	0.9%
Fish pond or fishing equipment	3.9%	96.1%	0.0%
Farm equipment (non-mechanized: hand tools, animal-drawn plough)	58.4%	40.8%	0.9%
Farm equipment (Mechanized: tractor-plough, power tiller, treadle pump)	49.4%	50.6%	0.0%
Nonfarm business equipment	12.9%	87.1%	0.0%
House	69.1%	28.8%	2.1%
Large consumer durables (refrigerator, TV, sofa)	42.5%	57.5%	0.0%
Small consumer durables (radio,cookware)	83.7%	16.3%	0.0%
Cell phone	95.7%	4.3%	0.0%
Non-agricultural land	15.0%	85.0%	0.0%
Means of transportation	33.5%	66.5%	0.0%

P0.3 Household Income

Objective Definition : Smallholder farm households have sustainably increased their incomes and diversified their livelihoods with an emphasis on local markets.

Income Diversification

Diversity & Importance of Income Sources

Characteristic	N = 238 ¹
Income Source	
Crop farming + Off-farm sources	86 (36%)
Crop farming only	145 (61%)
Income sources unreported	3 (1.3%)
Off-farm sources only	3 (1.3%)
Unknown	1
¹ n (%)	

Income Source	Households (n)	%
Labour on other farms	11	4.6%
Labour, not on a farm	8	3.3%
Have own business	28	11.7%
Work in local business	2	0.8%
Remittances (send money)	18	7.5%
Work for government or public institution	27	11.2%
Other	5	2.1%

Ability to Save & Pay Debts

Households reporting their financial situation as “We can buy everything we want and there is still money for potential savings”: 70.9%

Does your household have any credit, debts or loans, or did you have any in the last 12 months?: 52.7%

Did you ever find it difficult to pay the debts in the last 12 months: 64.0%

Self-Perception of Financial Situation

N = 237 ¹	
Self-Perception of financial situation	
We can buy everything we want and there is still money for potential savings	168 (71%)
We can buy everything we want without specific problems but we are not able to save	46 (19%)
We live economically and so we can afford everything	10 (4.2%)
We live very economically in order to save money for important purchases / events	5 (2.1%)
We can buy only the cheapest food clothes and rent the cheapest apartment and (if the household is in debt) - for loan repayment	3 (1.3%)
We can only buy the cheapest food and we have no money to repay the loan or to pay for new clothes or rent	3 (1.3%)
We can not afford even the cheapest food	2 (0.8%)
¹ n (%)	

PO.4 Food Security & Dietary Diversity

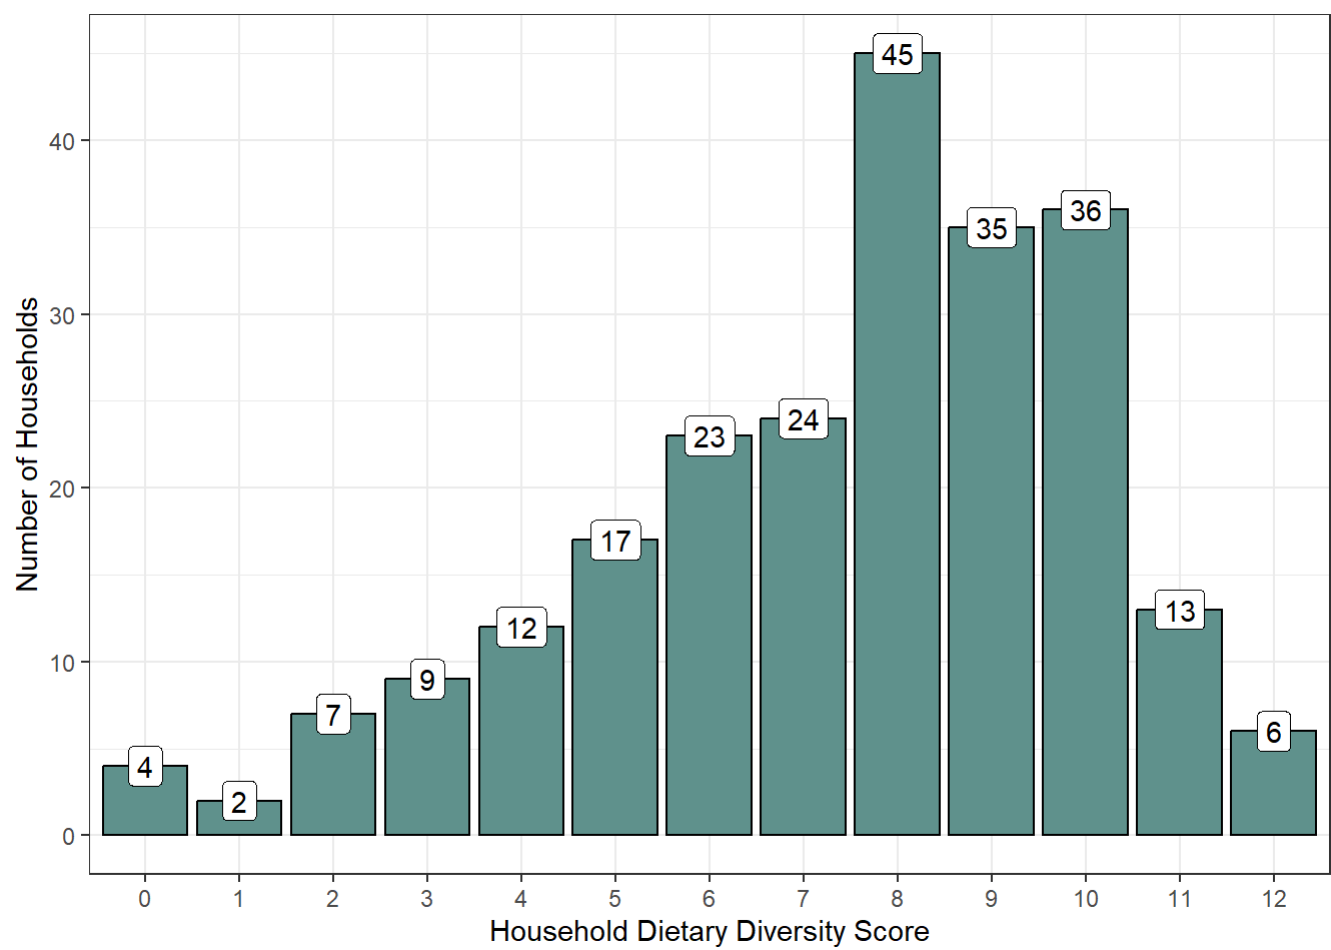

Objective Definition : Vulnerable households have improved dietary diversity and nutritional status.

Household Dietary Diversity

Household dietary diversity is defined by asking the respondent which of the following 12 food groups did they consume within the last 24 hours including; grains, roots & tubers, pulses, vegetables, fruits, meat & poultry, eggs, fish & seafood, milk & dairy, oils & fats, packaged sweets or honey and miscellaneous others. Scores will range between 0 and 12. A score of 0 would reflect a household going a whole day without eating, a score of 12 suggests every listed food group was consumed within the household.

Note: During the pilot phase of groundswell, these questions only included the responding woman of the household in the wording. Future implementations will reflect the whole household.

% Households Reached minimum level of diversity (at least 5 food groups): 85.4%

FIES (Food Insecurity)

The Food Insecurity Experience Scale (FIES) assesses a households recent history of food security through 8 questions. For each question, the responding woman will answer whether or not the household exhibited certain events due to a lack of money or resources over the last 12 months. These include being unable to east healthy foods, skipping meals, and going a whole day without eating.

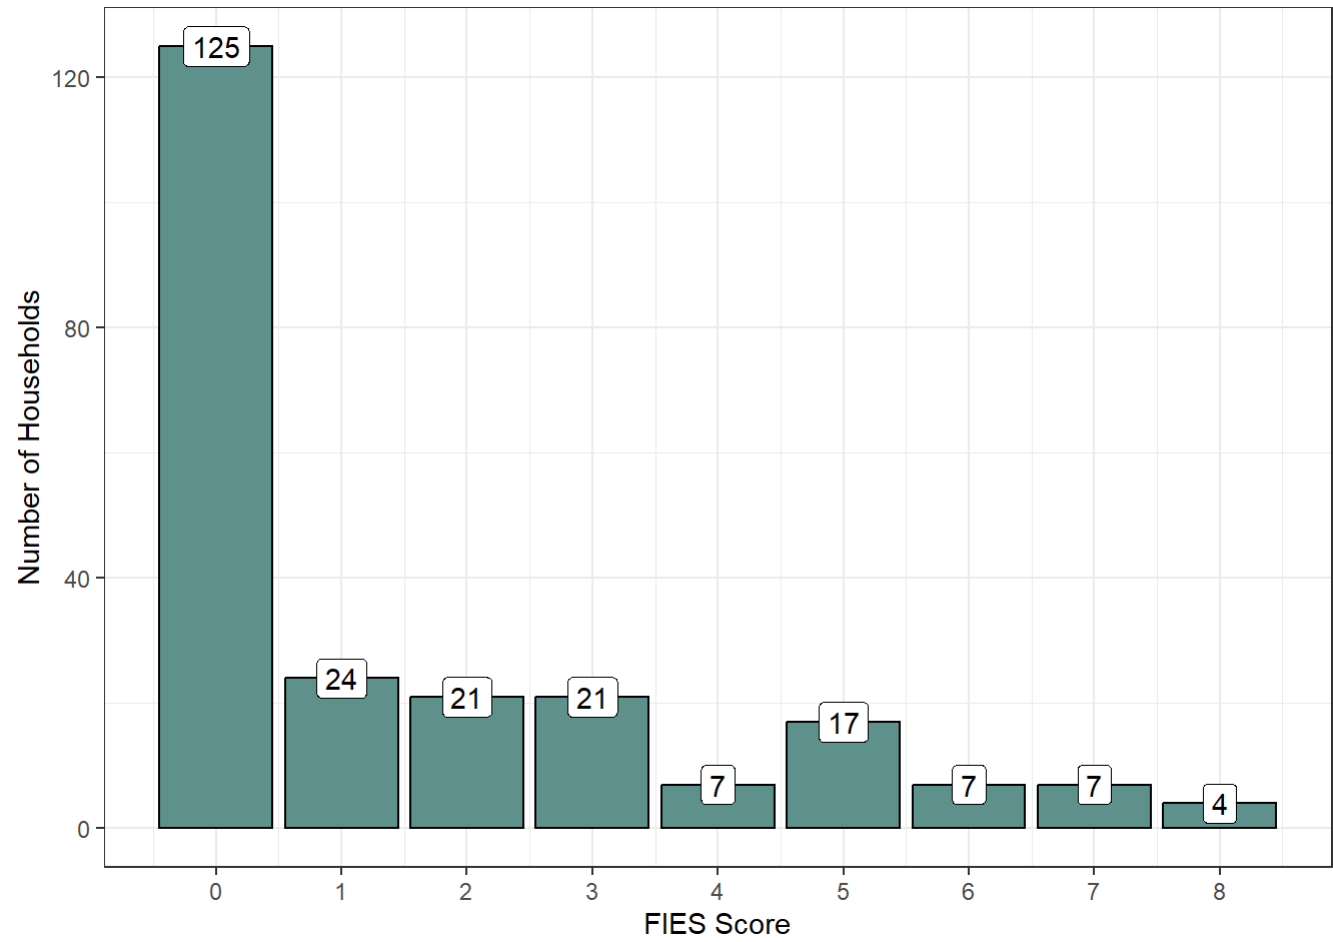

Each behaviour experienced increases the FIES score by 1, therefore lower scores represent greater food security while high scores reflect high insecurity. Households may additional be categorised based on which specific events they experienced.

- Food Secure = No food insecure events experienced
- Mildly Insecure = Experienced worrying about not having enough to eat, being unable to eat healthy food, eating only a few kinds of foods or skipping a meal
- Moderately Insecure = Experienced eating less than they thought they should, running out of food or were hungry but not eat.
- Severely Insecure = Experienced going a whole day without eating

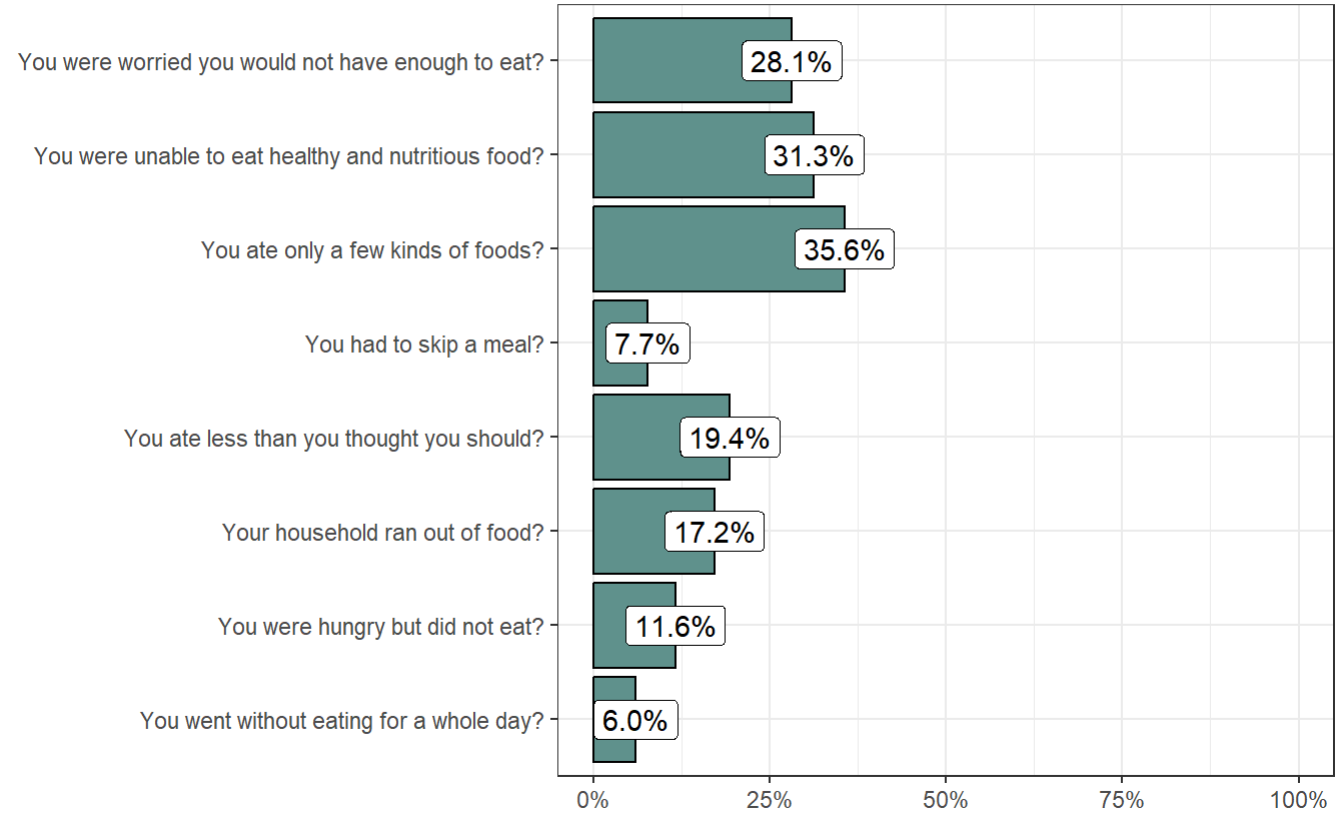

Estimated % of households with moderate or severe food insecurity: 21.5%

Estimated % of households with severe food insecurity: 3.5%

FIES Category	n	%
Food Secure	125	52.5%
Mildly Food Insecure	51	21.4%
Moderately Food Insecure	43	18.1%
Severely Food Insecure	14	5.9%
NA	5	2.1%

Think back over the last YEAR. Was there a time when, because of lack of money or other resources...

Agricultural Inputs and Practices

Agricultural Inputs	N = 234 ¹
