Indicator Summary

Indicator	Estimate
PO.1	
Total Number of Crops (Median)	0

Indicator	Estimate
Total Number of Important Crops (Median)	1
Gini-Simpson Diversity Index (Median)	0
Median % of farm area used for staple crop production (Millet, Maize, Sorghum & Wheat)	75.0%
PO.2	
Women's Decision Making - Crops grown for food	9.1%
Women's Decision Making - Crops grown for the market	10.8%
Women's Decision Making - Expenditure of household savings	14.1%
Women's Decision Making - Choose how to spend their own income	36.0%
Women's Decision Making - Choose what to sell in the market	3.0%
Women's Decision Making - Participate in community committees – specifically can they choose how they allocate time to community groups, farm work, etc.	8.9%
% of women having sole/joint ownership of at least one major or two minor assets:	92.8%
Median % of household assets owned solely/jointly by women	80.0%
PO.3	
% of households with at least 2 different sources of income	12.2%
Financial situation - “We can buy everything we want and there is still money for potential savings”	46.7%
Does your household have any credit, debts or loans, or did you have any in the last 12 months?:	53.3%
Did you ever find it difficult to pay the debts in the last 12 months	33.7%
PO.4	
Minimum Dietary Diversity (5 food groups)	88.5%
Estimated % of households with moderate or severe food insecurity:	27.6%
Estimated % of households with severe food insecurity:	2.4%

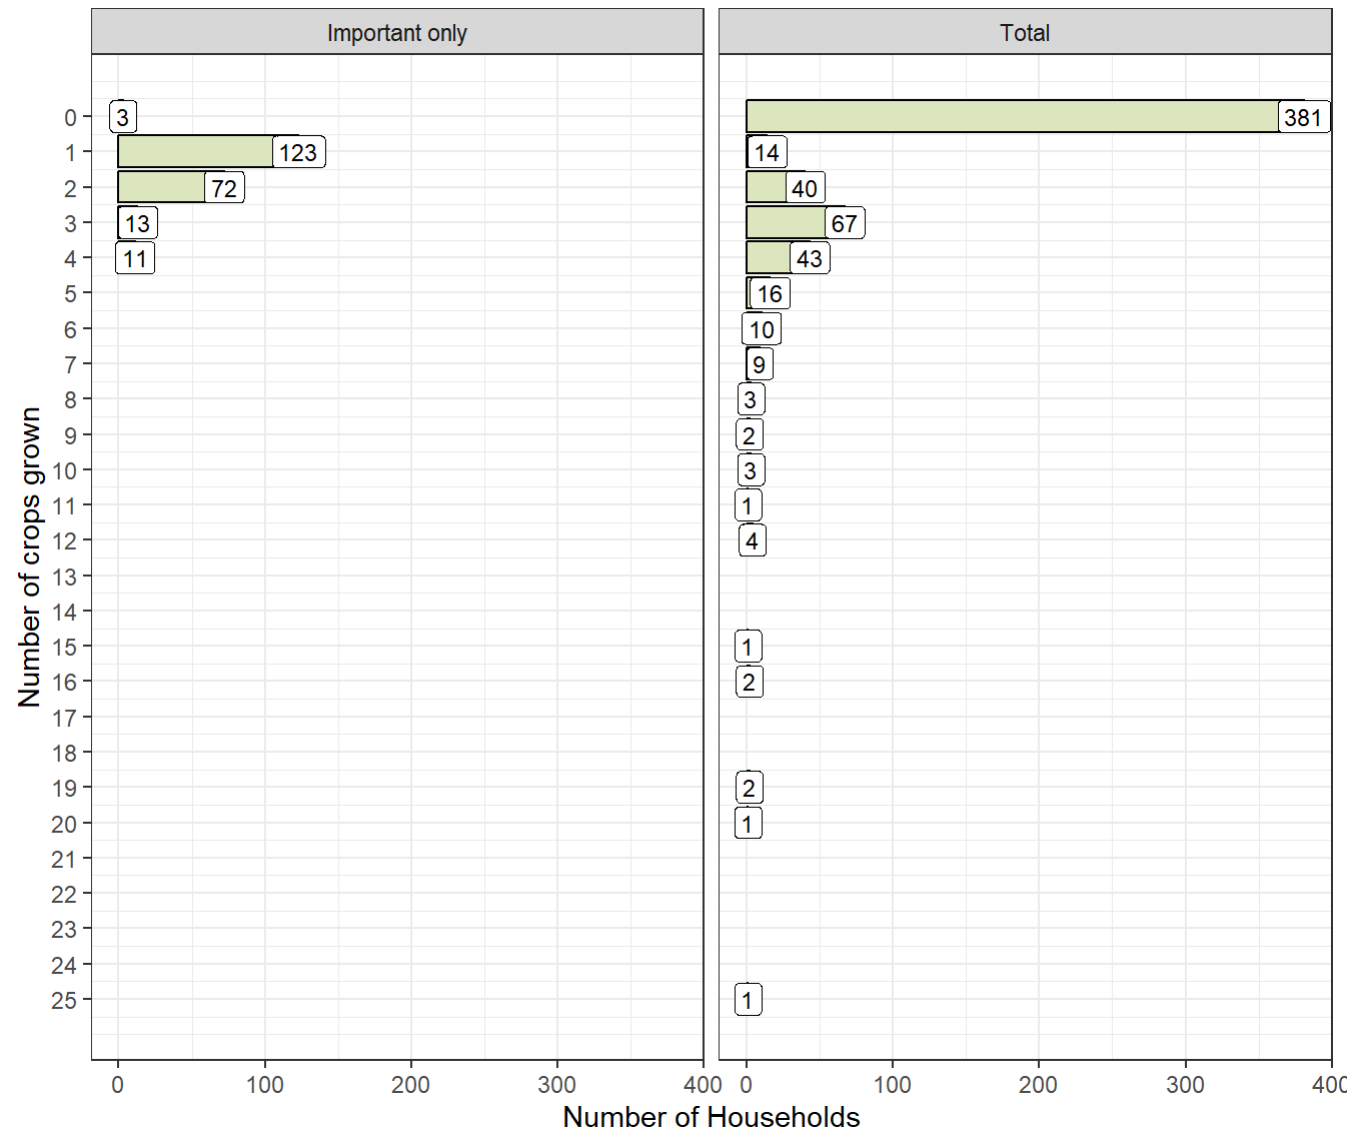

PO.1 Productivity

Objective Definition : Smallholder farm households have improved their capacity to increase productivity and food security by transitioning their farming systems through agroecological methods.

Crop Production

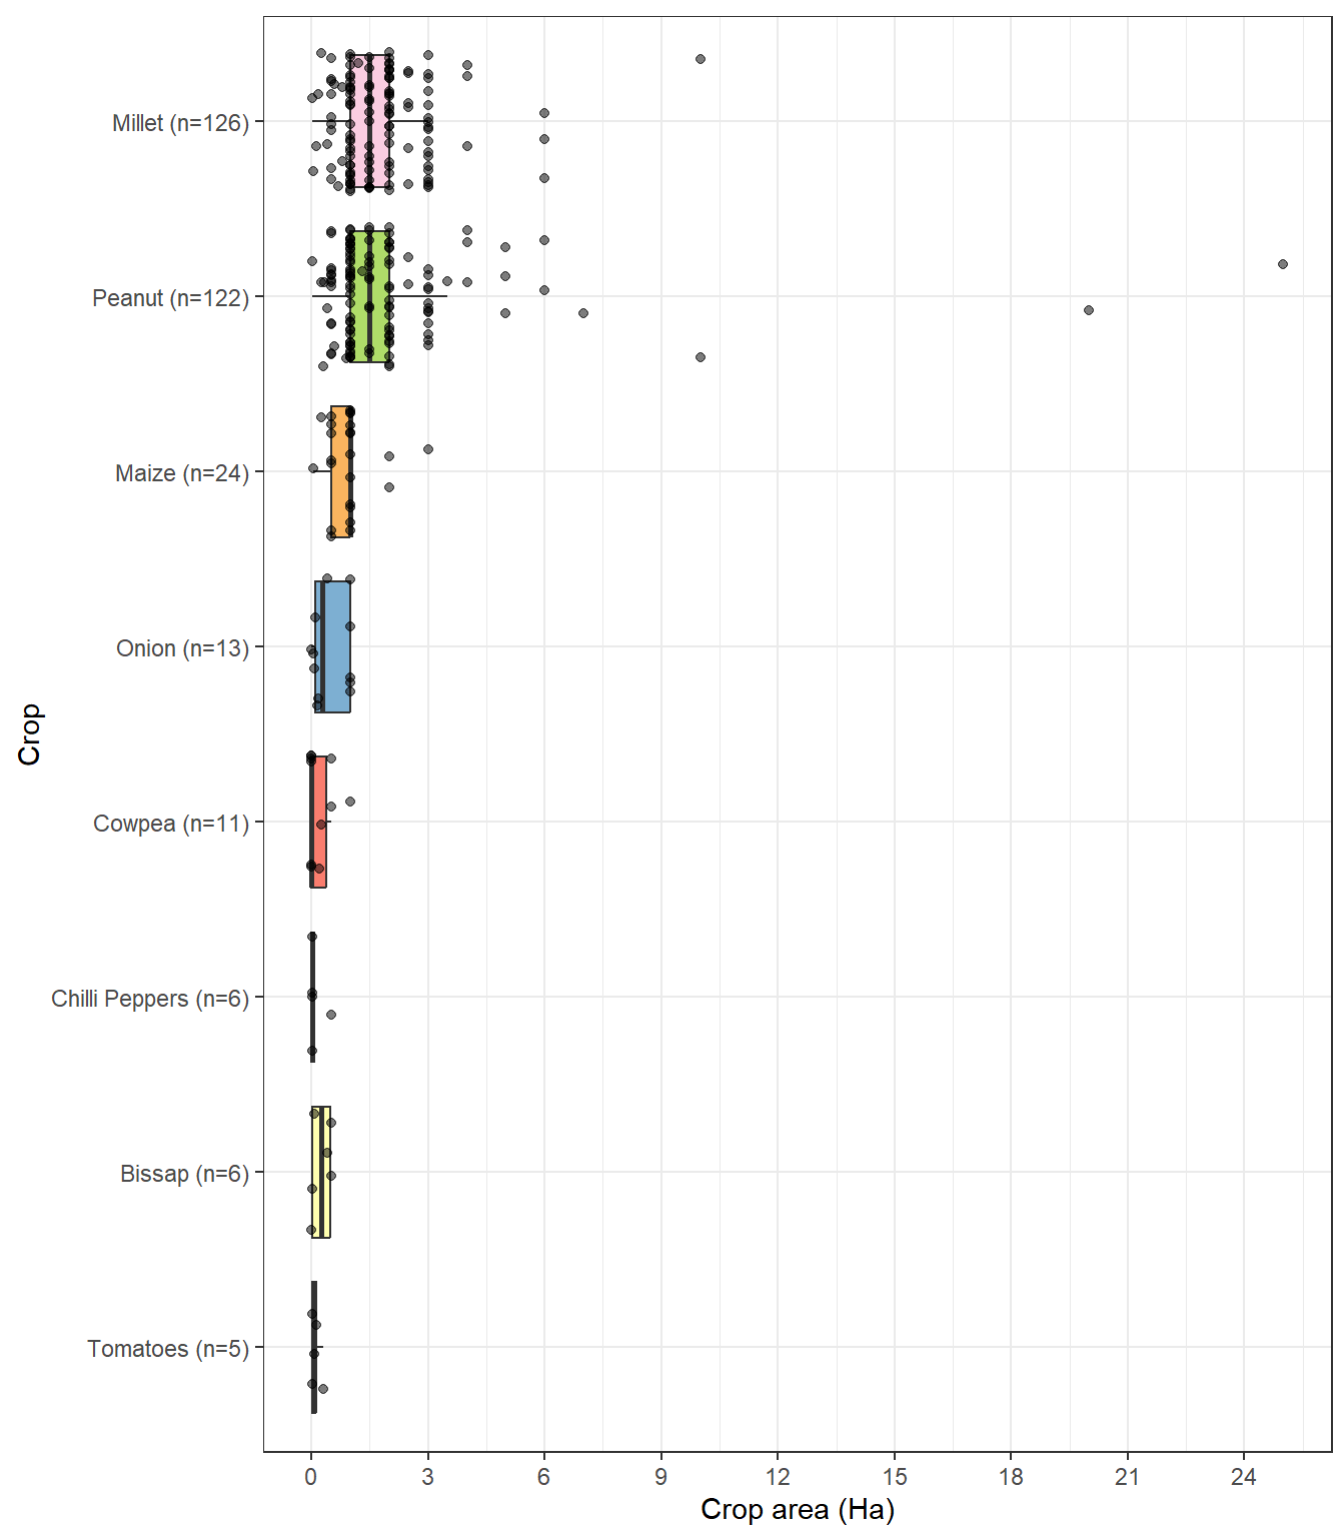

Crop	N (%)	Mean Area (Ha)	Mean Yield (Kg)	Mean Productivity (Kg/Ha)
Millet	126 (21.0%)	1.82	1,367	984
Peanut	122 (20.3%)	2.12	1,710	891
Maize	24 (4.0%)	0.95	1,396	1,519
Onion	13 (2.2%)	0.50	4,262	16,046
Cowpea	11 (1.8%)	0.22	46	8,288
Chilli Peppers	6 (1.0%)	0.11	380	24,108
Bissap	6 (1.0%)	0.25	1,676	4,100
Tomatoes	5 (0.8%)	0.11	870	19,233
Sweet Eggplant	4 (0.7%)	0.03	812	29,093
Okra	4 (0.7%)	0.04	750	20,000
Rice	4 (0.7%)	0.88	550	575
Lettuce	4 (0.7%)	0.01	250	36,667
Papaya	3 (0.5%)	0.02	1,000	50,000
Sweet Chili	3 (0.5%)	0.04	667	14,998
Carrot	3 (0.5%)	0.00	105	30,000
Lemon trees	3 (0.5%)	0.52	725	7,975
Lemon Grass	2 (0.3%)	0.00	30	15,000
Cabbage	2 (0.3%)	0.02	1,090	50,000
Bananas	1 (0.2%)			
Potato	1 (0.2%)	0.33	10,000	30,000
Cucumber	1 (0.2%)	0.01	400	60,006
Missing entries result of using measurment units wihtout confrimed coversions to KG and/or HA				

Number of crops grown in a farm

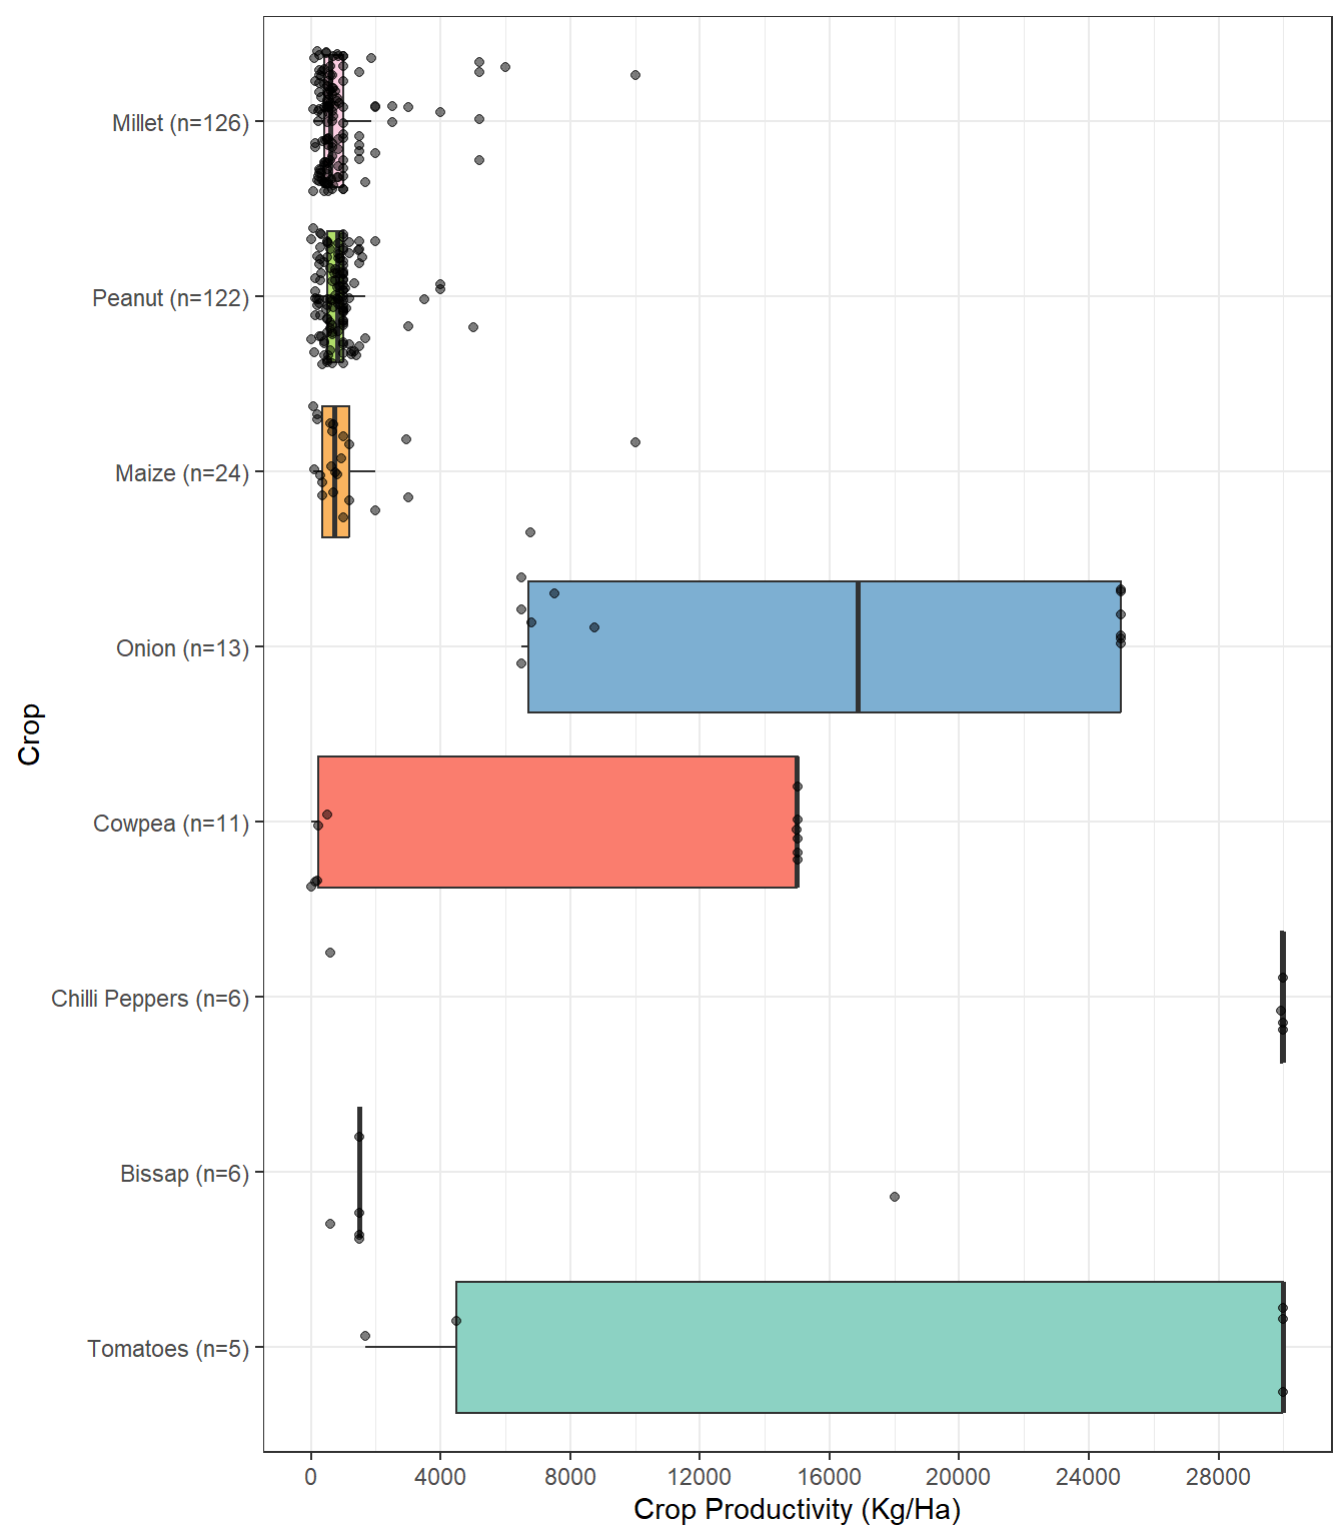

Area of main crops (Ha)

The following box plot shows the distribution of crop production areas (in hectares) for all crops grown by at least 5 respondents. The box represents the interquartile range (IQR) of the data, with the line inside the box indicating the median. The whiskers extend to 1.5 times the IQR, and any points beyond this range are considered outliers and are not shown in this plot.

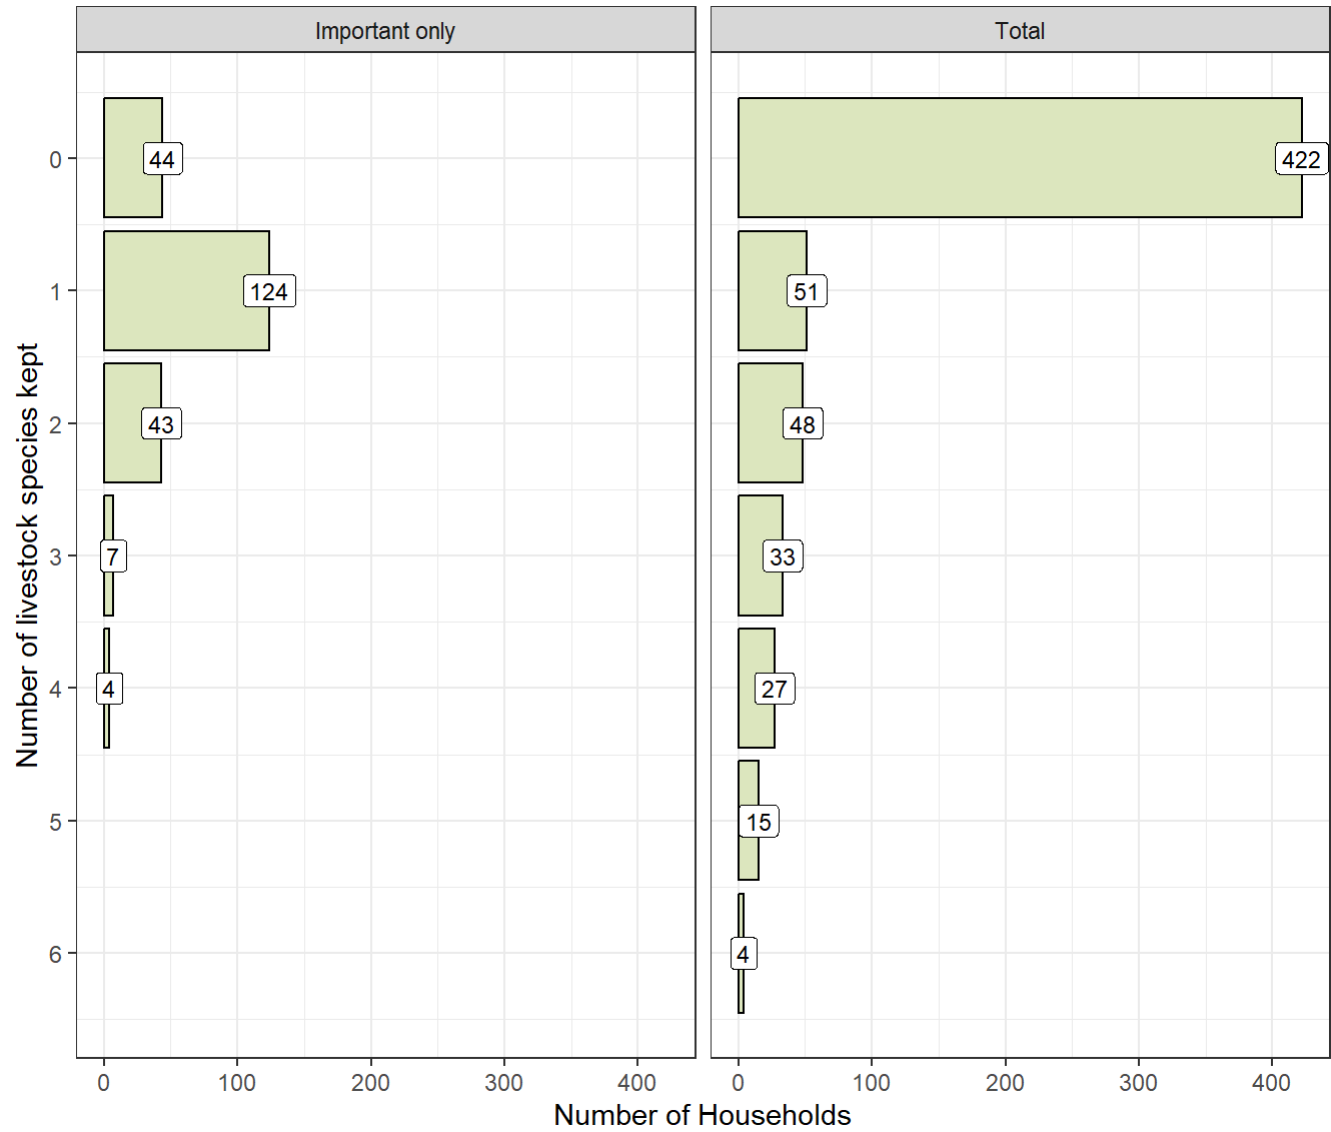

Crop Yields (Kg/Ha)

The following box plot shows the distribution of crop yields (in Kg/Ha) for all crops grown by at least 5 respondents. The box represents the interquartile range (IQR) of the data, with the line inside the box indicating the median. The whiskers extend to 1.5 times the IQR, and any points beyond this range are considered outliers and are not shown in this plot.

Livestock Production

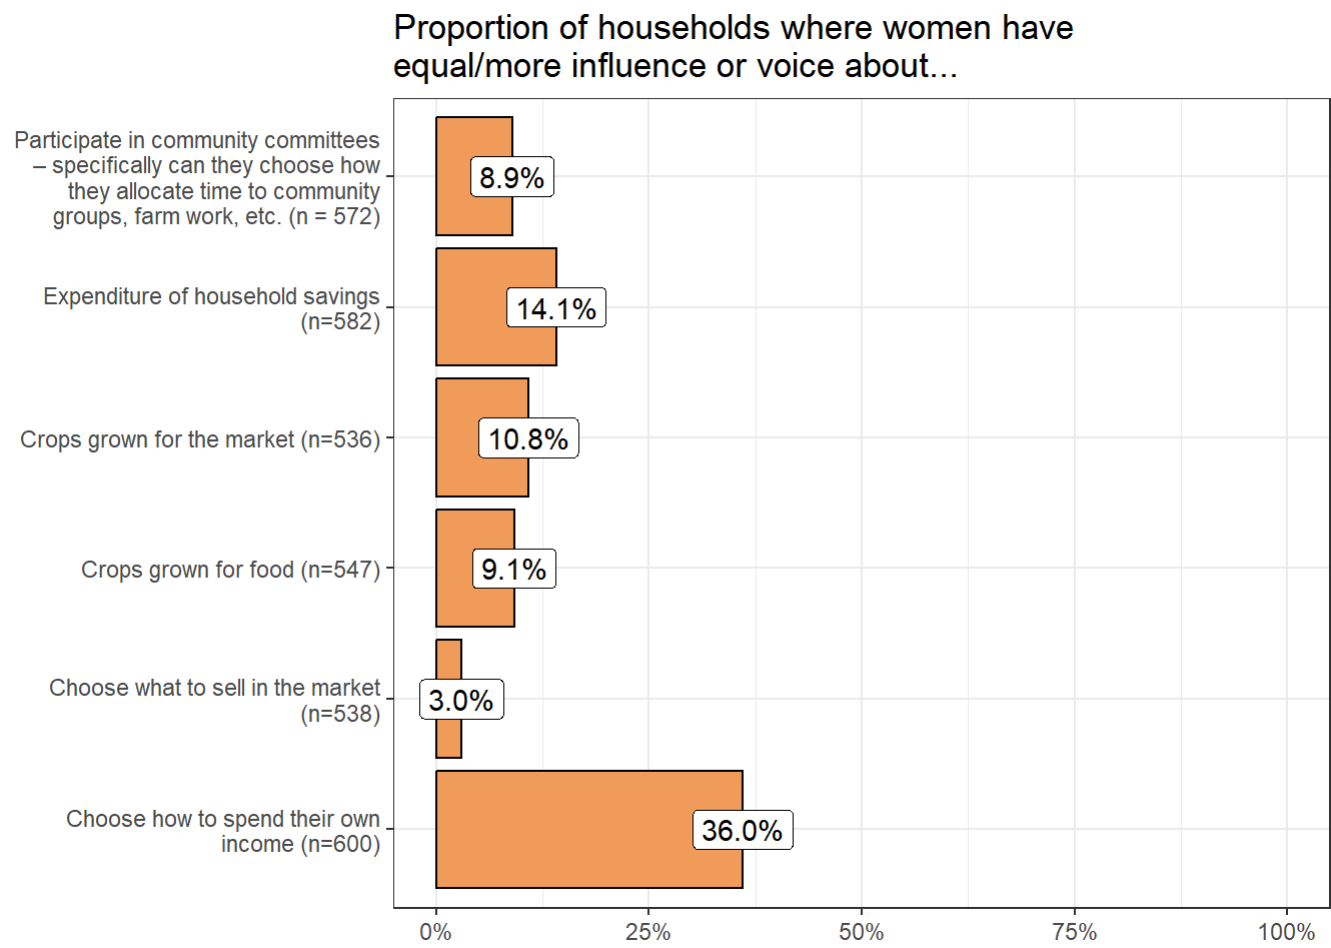

Livestock Species	N (%)	Headcount (Median)	Number bought (Median)	Live births (Median)	Quantity sold (Median)	Quantity died (Median)	Sale Income (Median)
Horses	138 (23.0%)	1	0	0	0	0	150000
Donkey	80 (13.3%)	1	0	0	0	0	0
Chicken	59 (9.8%)	10	2	6	4	5	44000
Goats	58 (9.7%)	4	0	2	0	0	47500
Cattle	51 (8.5%)	3	0	1	0	0	400000
Sheep	41 (6.8%)	5	0	1	0	0	375000
Turkey	2 (0.3%)	2					
Other birds	1 (0.2%)	25					
Pigs	0 (0.0%)						
Rabbits	0 (0.0%)						
Fishes	0 (0.0%)						
Bees	0 (0.0%)						

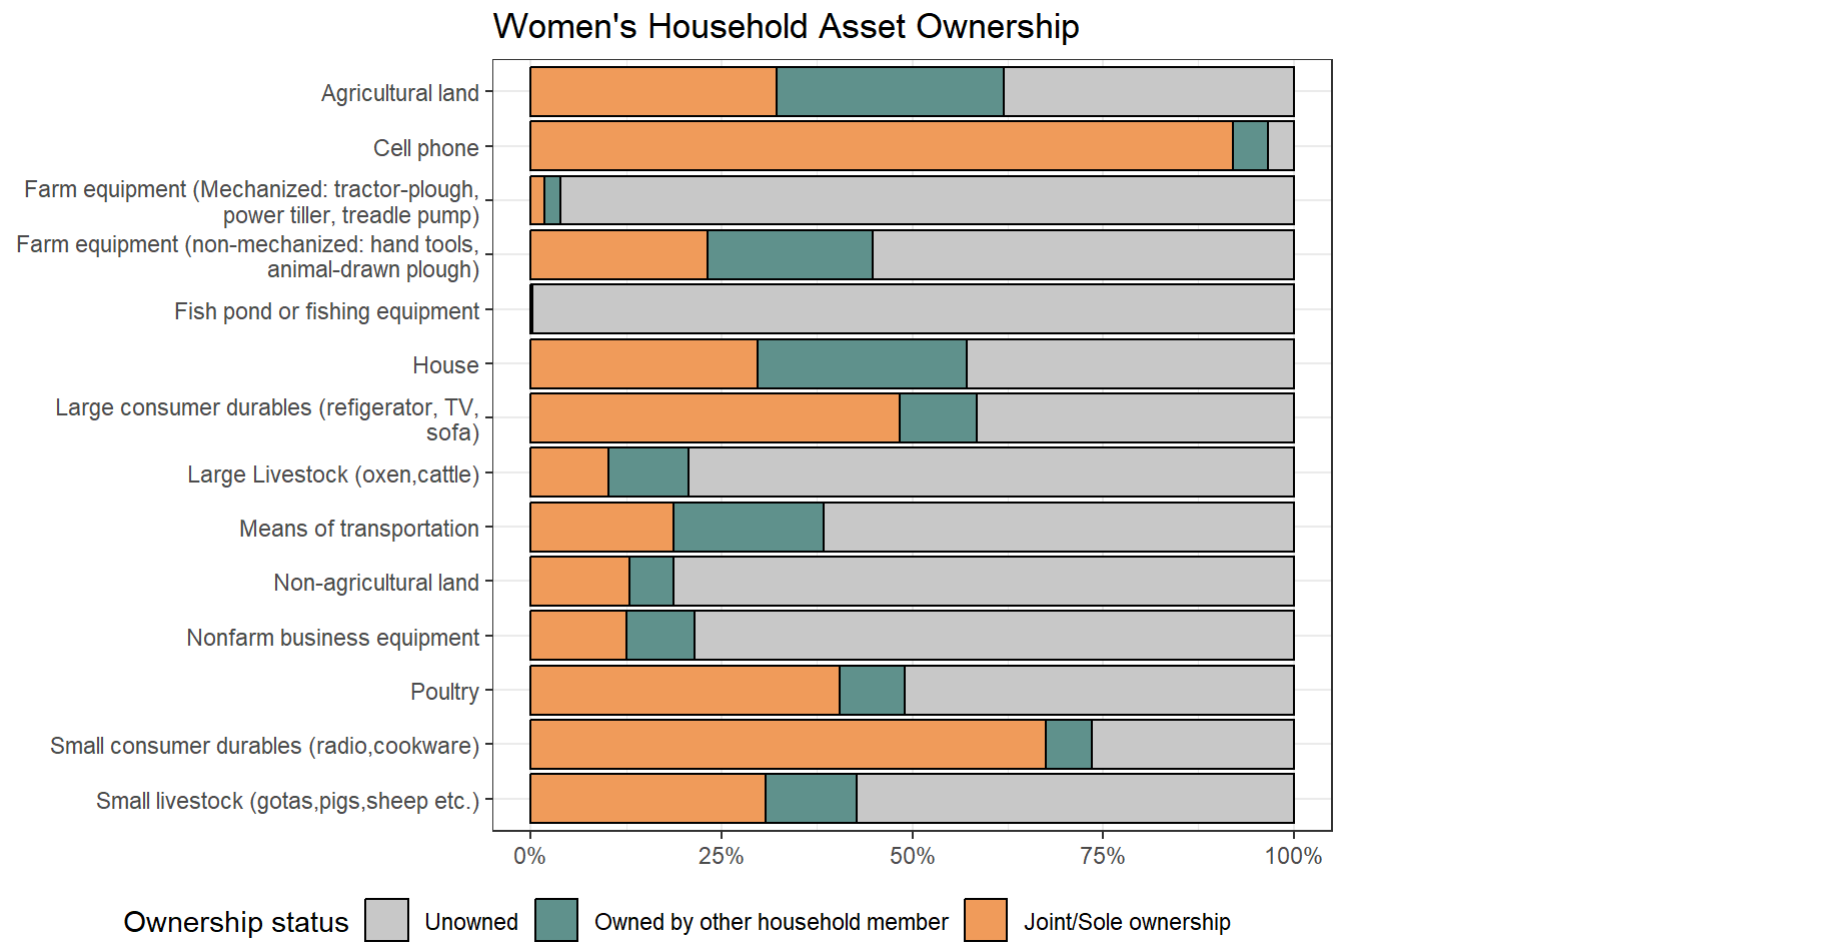

PO.2 Womens Empowerment

Objective Definition : Women farmers have gained greater control over productive resources and decision making in their households and communities.

Proportion of households where women have equal/more influence or voice about...

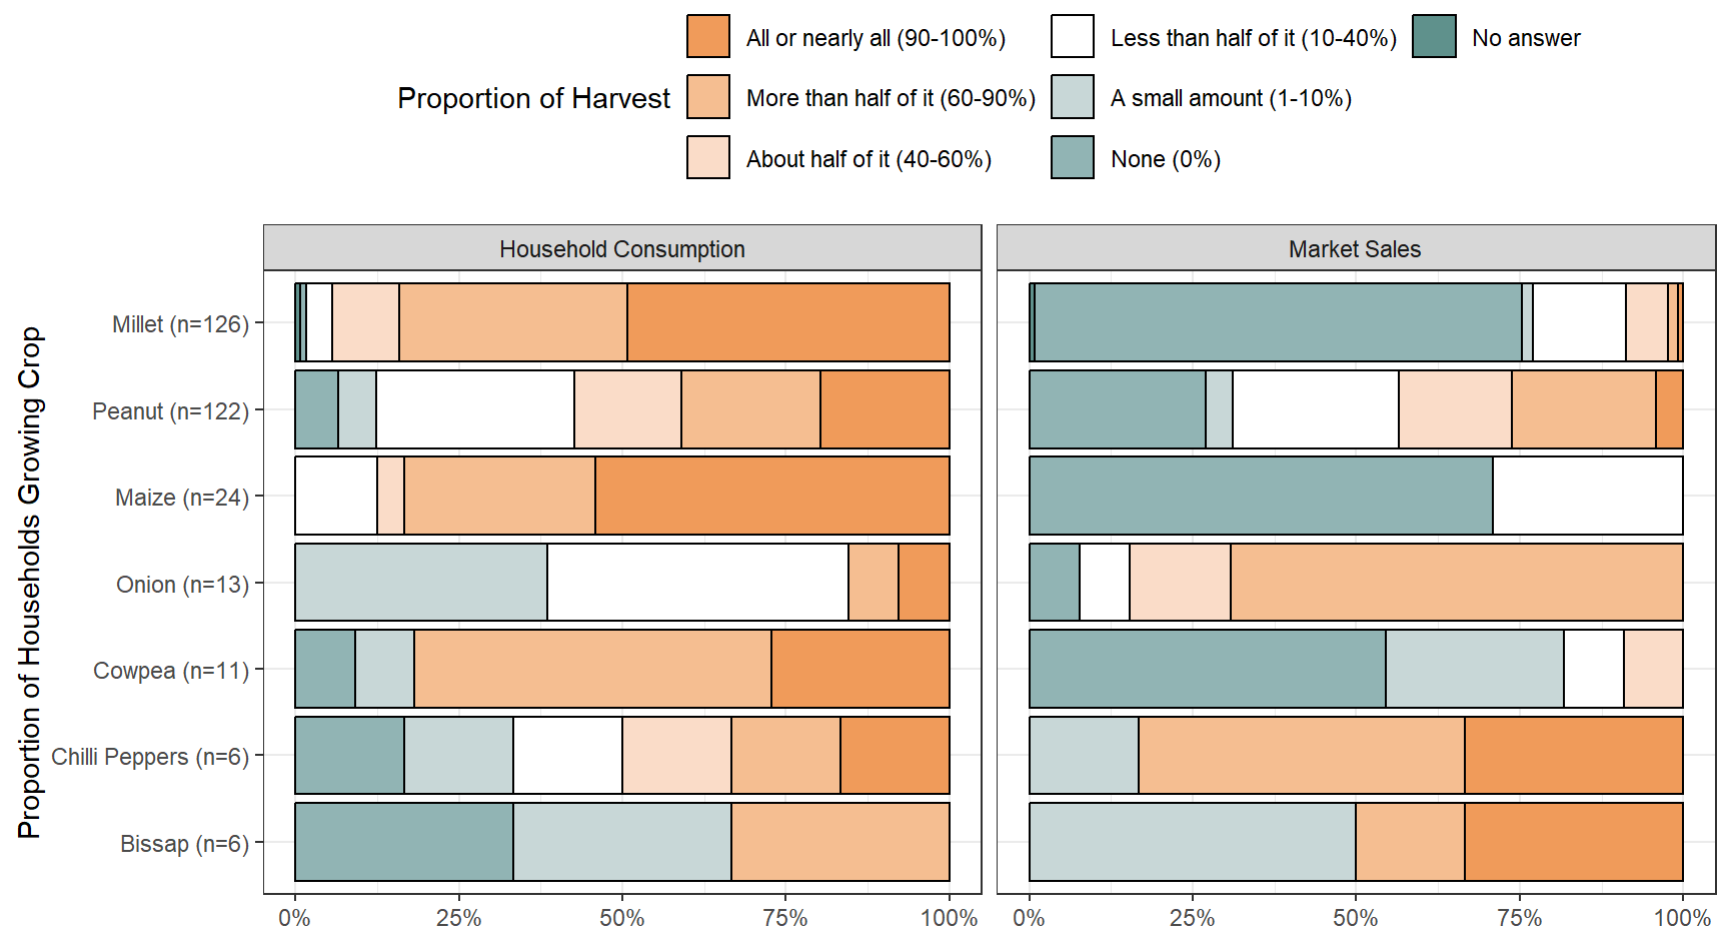

Asset	Joint/Sole ownership	Unowned	Owned by other household member
Agricultural land	32.2%	38.0%	29.8%
Large Livestock (oxen,cattle)	10.2%	79.3%	10.5%
Small livestock (gotas,pigs,sheep etc.)	30.8%	57.3%	11.8%
Poultry	40.5%	51.0%	8.5%
Fish pond or fishing equipment	0.2%	99.8%	0.0%
Farm equipment (non-mechanized: hand tools, animal-drawn plough)	23.2%	55.2%	21.7%
Farm equipment (Mechanized: tractor-plough, power tiller, treadle pump)	1.8%	96.2%	2.0%
Nonfarm business equipment	12.5%	78.5%	9.0%
House	29.7%	42.8%	27.5%
Large consumer durables (refrigerator, TV, sofa)	48.3%	41.5%	10.2%
Small consumer durables (radio,cookware)	67.5%	26.5%	6.0%
Cell phone	92.0%	3.3%	4.7%
Non-agricultural land	13.0%	81.3%	5.7%
Means of transportation	18.7%	61.7%	19.7%

P0.3 Household Income

Objective Definition : Smallholder farm households have sustainably increased their incomes and diversified their livelihoods with an emphasis on local markets.

¹ n (%)

Income Diversification

Diversity & Importance of Income Sources

Characteristic	N = 600 ¹
Income Source	
Crop farming + Off-farm sources	73 (12%)
Crop farming only	146 (24%)
Income sources unreported	381 (64%)
¹ n (%)	

Income Source	Households (n)	%
Labour on other farms	18	3.0%
Labour, not on a farm	19	3.2%
Have own business	116	19.3%
Work in local business	49	8.2%
Remittances (send money)	8	1.3%
Work for government or public institution	47	7.8%
Other	47	7.8%

Ability to Save & Pay Debts

Households reporting their financial situation as “We can buy everything we want and there is still money for potential savings”: 46.7%

Does your household have any credit, debts or loans, or did you have any in the last 12 months?: 53.3%

Did you ever find it difficult to pay the debts in the last 12 months: 33.7%

Self-Perception of Financial Situation

	N = 600 ¹
Self-Perception of financial situation	
We can buy everything we want and there is still money for potential savings	280 (47%)
We can buy everything we want without specific problems but we are not able to save	125 (21%)
We live economically and so we can afford everything	80 (13%)
We live very economically in order to save money for important purchases / events	13 (2.2%)
We can buy only the cheapest food clothes and rent the cheapest apartment and (if the household is in debt) - for loan repayment	28 (4.7%)
We can only buy the cheapest food and we have no money to repay the loan or to pay for new clothes or rent	62 (10%)
We can not afford even the cheapest food	12 (2.0%)
¹ n (%)	

PO.4 Food Security & Dietary Diversity

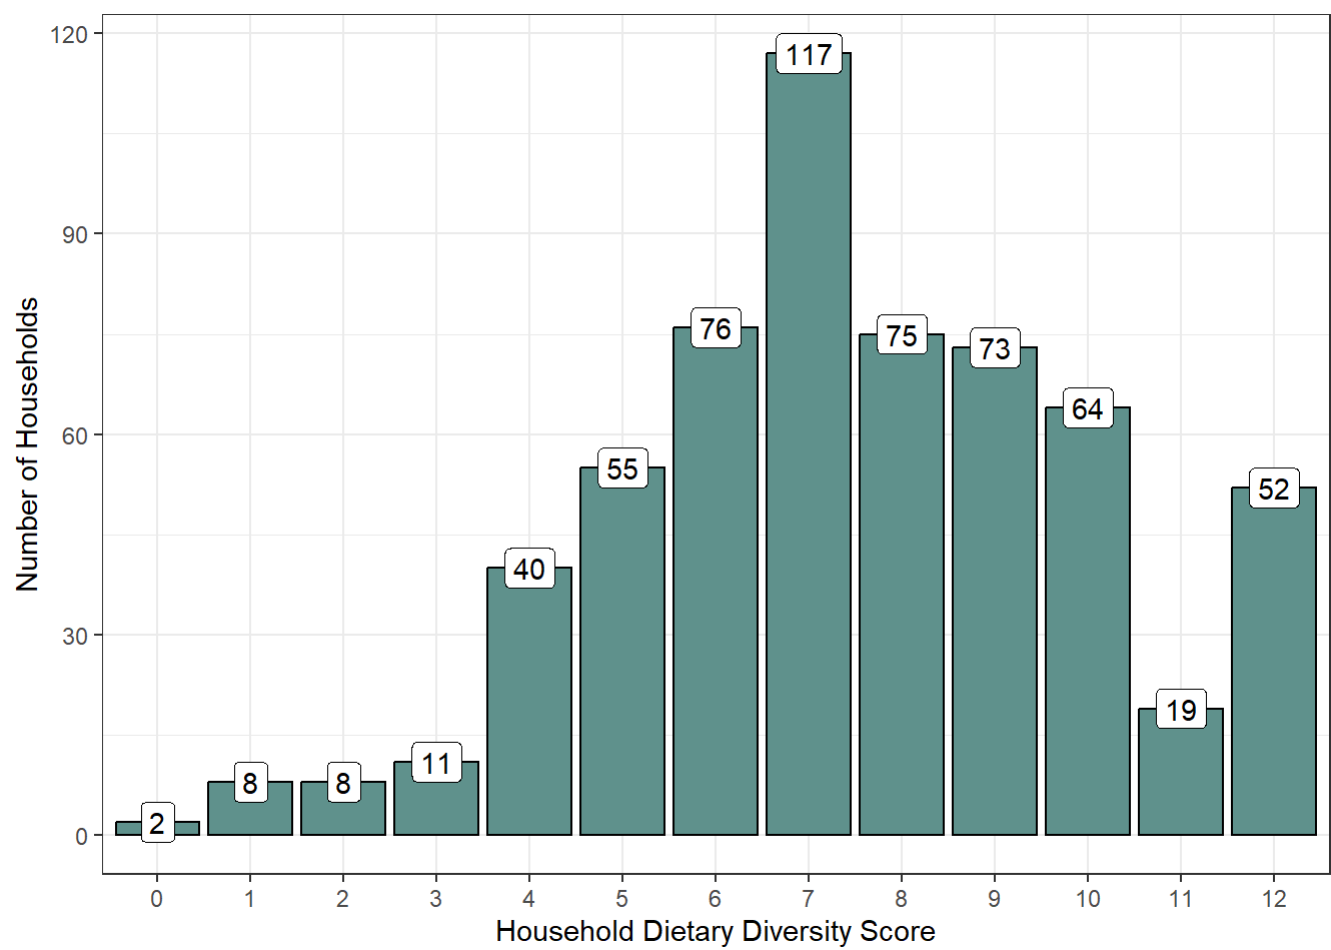

Objective Definition : Vulnerable households have improved dietary diversity and nutritional status.

Household Dietary Diversity

Household dietary diversity is defined by asking the respondent which of the following 12 food groups did they consume within the last 24 hours including; grains, roots & tubers, pulses, vegetables, fruits, meat & poultry, eggs, fish & seafood, milk & dairy, oils & fats, packaged sweets or honey and miscellaneous others. Scores will range between 0 and 12. A score of 0 would reflect a household going a whole day without eating, a score of 12 suggests every listed food group was consumed within the household.

Note: During the pilot phase of groundswell, these questions only included the responding woman of the household in the wording. Future implementations will reflect the whole household.

% Households Reached minimum level of diversity (at least 5 food groups): 88.5%

FIES (Food Insecurity)

The Food Insecurity Experience Scale (FIES) assesses a households recent history of food security through 8 questions. For each question, the responding woman will answer whether or not the household exhibited certain events due to a lack of money or resources over the last 12 months. These include being unable to east healthy foods, skipping meals, and going a whole day without eating.

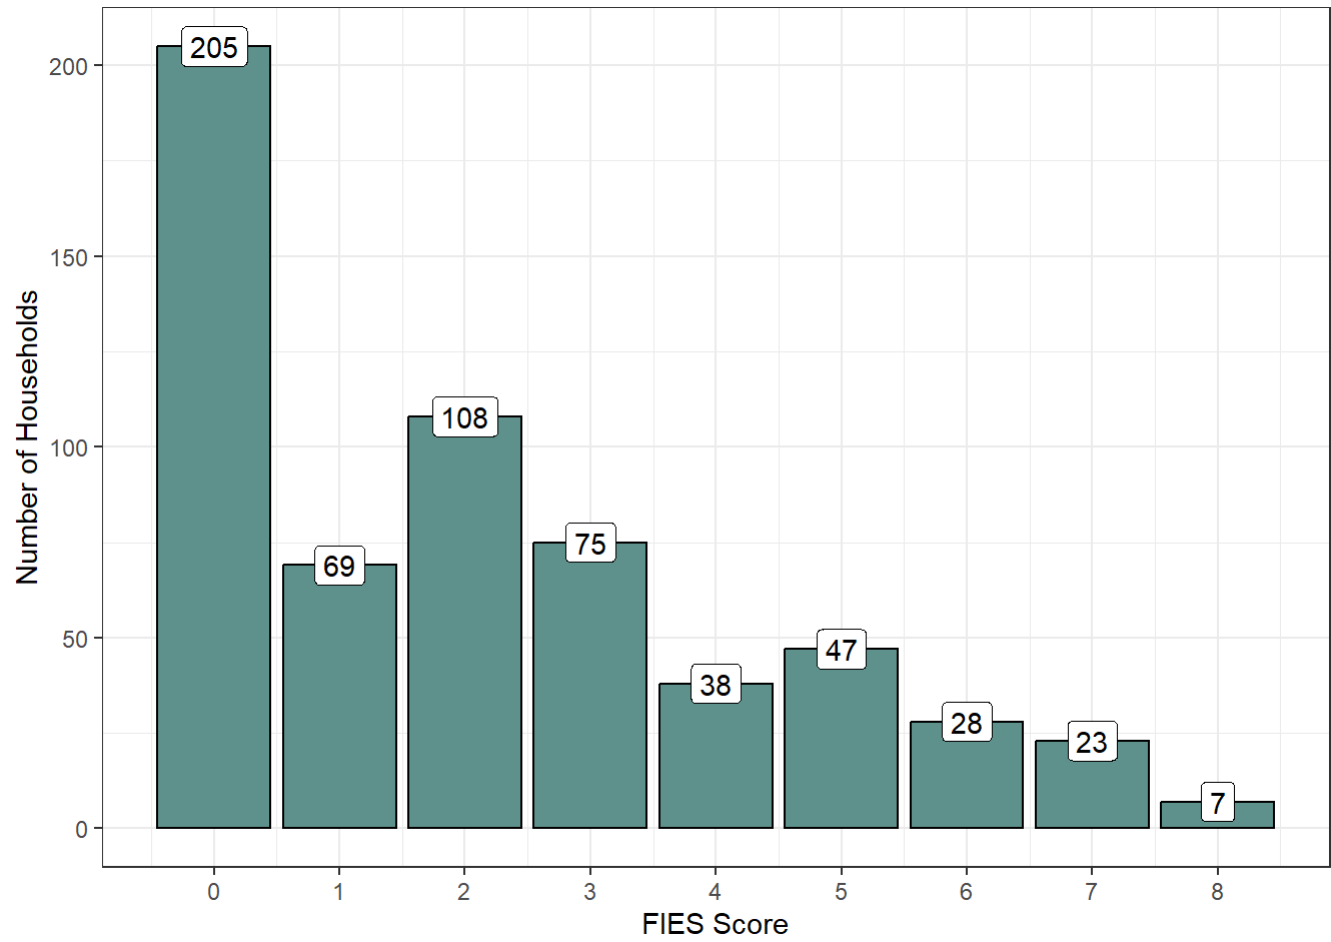

Each behaviour experienced increases the FIES score by 1, therefore lower scores represent greater food security while high scores reflect high insecurity. Households may additional be categorised based on which specific events they experienced.

- Food Secure = No food insecure events experienced
- Mildly Insecure = Experienced worrying about not having enough to eat, being unable to eat healthy food, eating only a few kinds of foods or skipping a meal
- Moderately Insecure = Experienced eating less than they thought they should, running out of food or were hungry but not eat.
- Severely Insecure = Experienced going a whole day without eating

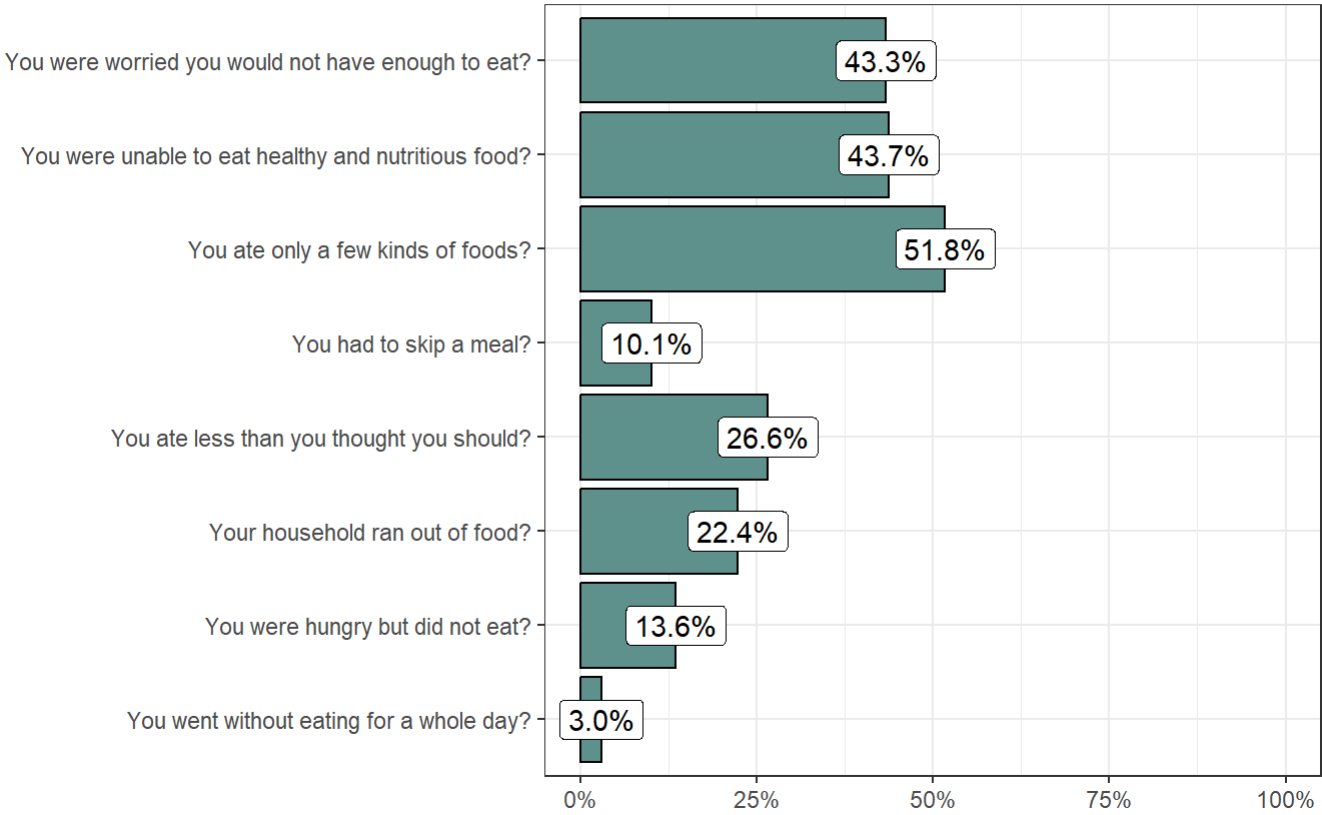

Estimated % of households with moderate or severe food insecurity: 27.6%

Estimated % of households with severe food insecurity: 2.4%

FIES Category	n	%
Food Secure	205	34.2%
Mildly Food Insecure	212	35.3%
Moderately Food Insecure	165	27.5%
Severely Food Insecure	18	3.0%

Think back over the last YEAR. Was there a time when, because of lack of money or other resources...

Agricultural Inputs and Practices

Agricultural Inputs	N = 216 ¹
Fertilisers	40 (19%)
